JOY

2021

She woke up to morning sunlight shining through the blinds. From the bathroom you could hear the children laughing. The smell of fresh toast drifted from the kitchen. She walked towards the bathroom in warm, soft sheepskin slippers. The sound of showering and tooth brushing could be heard from the other side of the door. She knocked gently. There was no reply. Silence fell, then a tone of giggle. Suddenly the bathroom door burst open with a loud “Boo!” from the children. After a flurry of hugs, she was just stepping into the bathroom when her husband managed to sneak in before her. “Sorry darling, just a second” he said, before quickly shutting the door. The sound of running water went on for some time before he re-emerged. “Good morning, breakfast is ready.” With a spurious look of irritation, she went into the bathroom and locked the door. Her reflection smiled back from the mirror. Now the bathroom was hers. At least for a short while. Just hers.

This is the start of a great day.

TABLE OF CONTENTS

96 We make your bathroom life easier

We all want a neat and tidy bathroom, but how easy is this to achieve in reality? Here are some tips about what to focus on, and above all what things you might need.

8 Generations of craftsmanship

Many of the people visiting our factory in Dalstorp are surprised to learn that we manufacture and assemble all our bathroom furniture ourselves. To us, nothing could seem more natural.

14 Epos, this year's most exciting new product!

The result is a unique look that brings together materials, function and details. But what everyone's talking about the is the freedom of choice.

102 The ultimate shower

One of Norway's highest waterfalls inspired us to create Langfoss. This innovative collection puts the focus on design, space, voluptuous water jets embracing the body, not least, textile!

Partnership with Halvor Bakke

When we embark on developing a brand new bathroom collection, how do we start? Unexpectedly perhaps, we contact a Norwegian. Halvor Bakke is well-known in Norway from TV appearances and various partnerships with interior design companies. He partnered up with us to design the new Epos furniture collection. The story has only just begun.

12

Bathroom trends

What is trending in bathrooms right now, and what new trends are on the horizon? We guide you through the jungle and offer you fascinating glimpses of the latest in style and design, from minimalist, hotel decor, open storage, the importance of tidy drawers and – that burning question – are bathrooms the new kitchen?

About Svedbergs

Few people know that Svedbergs was originally founded because there was a need for quality milk cans in the local region around Dalstorp in Västergötland, Sweden. This is hardly surprising, considering that was over a century ago. The company's transition to bathroom furniture is a long story, but let us pay our respect to Holger Svedberg and the solid craftsmanship behind his milk cans – a tradition that we have carefully preserved and developed. This is why much of our production is still done by hand in our own factory, with the philosophy of creating durable and smart products.

When you renovate a bathroom, a large part of the cost is spent on the moisture barrier and tiles. It's tempting to try and cut back on other costs, for instance by buying cheaper bathroom furniture that may be less durable. Cheaper furniture often becomes more expensive in the long run. When you choose Svedbergs bathroom furniture, you can rest assured. The quality is high, the materials are chosen with care, the products are assembled and all the electrics are factory-installed.

CRAFTSMANSHIP

We have everything you need for your bathroom, from bathroom furniture, washbasins and mixers to showers, heated towel rails and WCs. And everything can be matched together, including the styles, colours and materials. The result is a complete range of products for all bathrooms – whether they're simple, luxurious, wide, narrow, modern, classic, large or small.

Many of the people visiting our factory in Dalstorp are surprised to learn that we manufacture and assemble all our bathroom furniture ourselves. We do this to make things as easy and smooth as possible for you. Details such as handles, open storage, knobs, worktops, mirrors, mixers and lighting contribute to the bathroom's overall look. And when it comes to that all-important bathroom lighting, we've chosen high quality and peace of mind for you by pre-fitting our products with safe, energy-saving lighting systems. All the drawers in our bathroom cabinets have divider inserts and are fully extendable, soft-closing and easily adjustable. All our unpainted front panels have real wood veneers cut from selected logs with unique variations in colour and grain pattern (not to be confused with artificial surfaces such as film or melamine).

There's a lot to be said for our bathroom furniture, not least all the things that don't show on the surface. One example is the frames, which are made of moisture-resistant chipboard. We know they're tough because we've tested them for three days in 20 °C water, one day in 12 °C cold and three days in 70 °C heat. Moreover, our wooden furniture is coated in multiple stages for maximum durability. Our own coating method, DuraDry, ensures optimal moisture resistance and long product life. By applying three base coats dried individually with UV light, followed by two air-dried top coats, we make our furniture exceptionally durable.

The process is completed with acid curing paints and coatings that absorb into the material, sealing the wooden panels against moisture. We also manufacture our sheet metal parts in-house using our own method, EnduraDry. For our cabinets and drawers we use galvanised sheet metal, a material originally developed for the automotive industry. The coating we have developed is based on nanotechnology. This combination provides an excellent surface finish that is extremely dense, durable and washable. Everything is done in a closed process at our own coating facility, using environmentally friendly methods and without the use of solvents. The state research institute RISE has tested the products' performance in moist environments. Our products were awarded the highest rating in all categories.

It's easy to get very technical about manufacturing methods, quality and functions, and to describe them in great detail. As bathroom nerds, we love all that stuff – every bit as much as we love the aesthetics. But only you can decide what things you like and what you don't. The things we like are presented here, in this Bathroom Book. We know we love them because we develop all our products ourselves. That doesn't stop us from collaborating with renowned Nordic designers such as Halvor Bakke.

UP TO 20 YEAR GUARANTEE

Our warranties reflect our philosophy regarding quality, materials, and care for details. We provide up to a 20 year warranty on our furniture, showers, shower cabins and shower screens. We provide a 5 year warranty on heated towel rails, baths, mixers and WCs. This gives our customers even greater peace of mind. Read more about our warranties on [svedbergs.com](https://www.svedbergs.com) Through sustainable design with carefully selected, durable materials, in-house product development, rational and modern production in our own facilities, and smart logistics and distribution, we maintain a constant focus on the environment. There are environmentally trained employees and environmental managers in all of our production units, and we are constantly working to minimise the environmental footprint of our operations. We adhere to mandatory standards such as REACH, RoHS and WEEE, and are a member of BASTA, REPA and El-Kretsen.

BATHROOM TRENDS

Many people's dream bathroom has a minimalist style with a luxurious feeling.

Thin, hard-wearing worktops are becoming increasingly popular.

A bathroom interior looks great styled with a graphic, well-balanced design.

More and more people are talking about the importance of textiles in the bathroom. Besides adding aesthetic appeal, textile creates a soft, pleasant feeling and absorbs sound.

Wood creates a softer and warmer look and helps create a variety of styles in a characteristic Nordic way.

Drawer inserts with compartments and smart built-in functions for personal care and health.

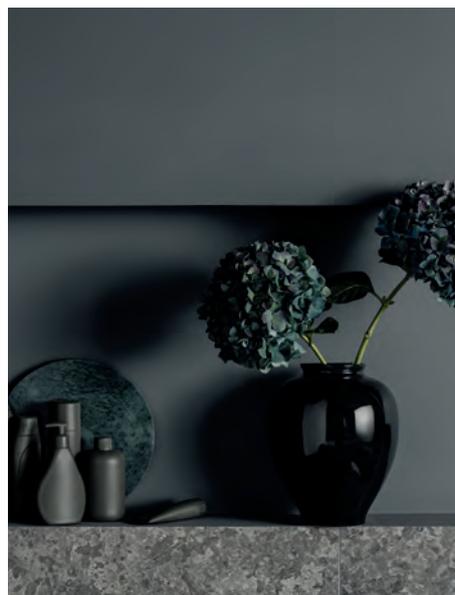

EPOS

When we begin to design our new Epos furniture collection, we contacted Norwegian interior designer and TV personality Halvor Bakke. Together, Halvor and our in-house design team have created something completely new, based on choice, combination, colour, shape and function. Designed for a space full of energy and enjoyment.

EPOS Vanity unit Stripe 200×45 brown ash with 2+0+2 drawers. EPOS countertop Laurent 200×45 Double. STORA independent washbasin sheet metal Ø40 pencil black. EJER free standing washbasin mixer black matt. ISTA mirror round Ø80 frame LED. Pendant lighting cylinder black matt. LANGFOSS shower screen 90×230 black matt profile and crystal glass. Shelf. LANGFOSS curtain rail 90 black matt. LANGFOSS curtain 90×230 ash grey. STUOR shower set 160cc black matt. SIGYN heated towel rail 26×120 black matt. REYK independent mineral composite bath.

Epos is all about choice. Find inspiration and try out different combinations to customise the perfect solution for your style, your bathroom and your needs. Decide whether you want drawers or open storage – or both.

THE TV CELEBRITY WHO DESIGNED EPOS

Foto: Mona Nordøy

Halvor Bakke, interior designer.

Halvor is a tour guide and fly attendant who rerouted his career and is now a popular TV personality in Norway. Productions such as Homsepatruljen and Norges styggeste rom (Norway's Ugliest Rooms) have made him a household name in his native Norway. Although he's a man of many talents, he sees himself above all as an interior designer. He's always had a passion for interior decorating. When working as a tour operator, he always travelled with two suitcases full of home decor items, which he use to decorate his surroundings.

For him, a home is much more than trends, the most important thing is that people feel happy and comfortable in their living space. His guru is a well-known American clothing and interior designer who advocates the classic and timeless.

"Why should we always focus on the short term? I prefer a more long-term approach to design." As an example, he mentions his TV series Eventyrlig oppussing (Adventurous Refurbishment), in which he renovates old cabins at unexpected locations. Cabins are an important part of Norwegian culture, providing a retreat amidst nature far from the stress and consumerism of everyday life. It's not unusual for Norwegians to have two cabins, one in the mountains and one by the sea or a lake.

Halvor's followers perhaps associate him most with champagne (he recently launched his own brand which sold out immediately), scented candles and cushion covers. He is a soft and gentle person who sets high standards for himself and others. He freely admits to lacking patience.

"I have lots of ideas going round in my head and am constantly multitasking. I think those around me can sometimes find this a bit challenging.

He has a flat in Oslo and one in Palma, but above all he loves spending time in the Norwegian countryside. As well as close to his family, his sister, brother and parents all live within 500 metres of him. His favourite pastimes include cooking, gardening, tending to his favourite herb, mint, entertaining family and friends at home, travelling, and spoiling his family. When travelling, he always chooses smaller hotels that feel more personal and offer a taste of the local culture. Last year he began

a collaboration with Svedbergs, a company he was already familiar with.

"For some reason, bathrooms haven't been given the focus and attention they deserve. I generally find bathroom decor rather clinical and impersonal, so my challenge was to revamp their image and create something different, in collaboration with Svedbergs' designers. After all, this is a room where people spend the first and last moments of their day."

For Halvor, it's not about designing bold, flashy homes, but rather creating a living space that shows the things you like and who you are. He draws a comparison between a spa and a home bathroom.

"Everybody loves a spa. The soft lighting, pleasant fragrances and relaxing atmosphere. Yet home bathrooms are often cold and impersonal, with lots of downlights and an uninviting atmosphere.

His motto is 'Home sweet home', something he hopes will be reflected in his partnership with Svedbergs and the new bathroom furniture collection, Epos.

"It's been an incredibly exciting project, with choice as a central theme throughout the process. I'm delighted with the end result, the possibilities of choosing different front panels and colours, and the open storage where you can put creams, candles or natural objects. The most important thing of all for me was that the furniture should make the bathroom feel cosy and welcoming, a space full of energy and enjoyment."

"I don't see myself as a TV celebrity. I'm somebody who loves creating homes that people longing for and feel as their homes."

In the 40 cm drawer (included, widths of 120 and 200 cm), we've added several practical functions. These include double sockets and practical storage with space for big bathroom products like hairdryers and electric toothbrushes.

EPOS vanity unit Relief 200×45 slate gray with 1+1+1 drawers. EPOS metal drawer 80 black matt. EPOS countertop Keon 200×45 double. FROSS independent washbasin Solid Surface 55×35 black matt. FROSS basin shelf black matt. EJER free standing washbasin mixer black matt. ISTA mirror 80 frame LED. Pendant lighting cylinder black matt. ZAGA heated towel rail 26×120 black. ERICA thermostatic heater 300W black. LANGFOSS shower screen 90×230 black matt profile and crystal glass. STUOR shower set 160cc black matt.

EPOS – A JOURNEY OF DESIGN AND POSSIBILITIES

The inspiration for our new Epos furniture collection has come from many sources. Magazines we've read, experiences we've lived, people we've met, combined with a large dose of creativity. In a simple and inspiring way, you can choose between different sizes, colours, interior styles, materials, functions and – not least – combinations. You'll be rewarded with a unique, personalised solution tailored to your bathroom. Your own Epos.

The unique design makes the bathroom feel like an extension of the home. The front panels add character and atmosphere to the bathroom. Choose between Flat, Push open, Stripe or Relief, and between the colours white, slate grey, black oak, white ash, brown ash. You could also choose an optional colour from Svedbergs' colour collection. Read more about it on page 190.

Drawers, open storage or both?

The vanity units come in widths of 80, 100, 120, 160 and 200 cm. After you've made your choice, you can start experimenting to find the perfect solution for your taste, your bathroom and your needs. You choose whether you want drawers, open storage or a mix of both. The drawers have a stainless steel base and wooden divider inserts that match the colour of the cabinet fronts, a practical and attractive solution. You can choose between a Push open system or handles on the drawers. Epos also offers a lot of smart details. For instance, the 100 cm module has two practical side storage sections side by side, one opening towards the front, the other opening more discreetly on the side. This means you can choose what to put on display and what to hide away. Units with widths of 120 and 200 include a 40 cm wide drawer with double electrical sockets and practical space for big bathroom products.

When it comes to wash basins, you can choose between traditional models or a combinations of countertop basin solutions. Think about which material is best suited for your needs and preferences. The traditional basins, is in matt white and are made of mineral composite. This material has a luxurious feel and allows the basins to be made very thin and wide without seams. All the on countertop washbasins have geometric shapes and ultra-thin edges to enhance the visual design. These basins are available in steel (PVD-coated), porcelain and Solid Surface. The countertops are made of Dekton. Choose between the standard Danae, Keon and Laurent countertops. Or choose one of our special Rem, Aura and Sirius. Read more about the materials' characteristics on page 191.

Read more in the Buyer's Guide on page 152

Sizes & optional extras

- Depth: 45 cm.
- Widths: 80, 100, 120, 160 and 200 cm
- Lighting
- Electrical sockets
- Metal drawer for open shelf
- Storage bottom drawer
- Handles
- Water trap

Epos is available in five colours: white ash, brown ash, black oak, white or slate grey, and with a choice of three fronts: Flat, Relief and Stripe. You can also choose one of our optional colours: marine, ash grey, limestone, sand and sage.

Countertop

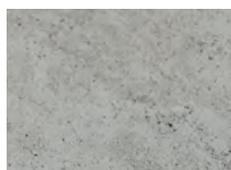

The countertops are made of Dekton, an exceptionally hard, scratch-resistant material that is more resistant to bending than granite. The material is also UV-resistant, which makes the surface easy to clean and prevents fading. Choose between Keon (grey concrete), Danae (beige sandstone) and Laurent (dark brown with gold marbling). *As an option, you can choose Sirius (black), Aura (white background with grey-black, prominent veining) and Rem (light marble look, less prominent veining).

Read more in the Buyer's Guide on page 162.

AMOR electric heated towel rail 10×140 black matt.

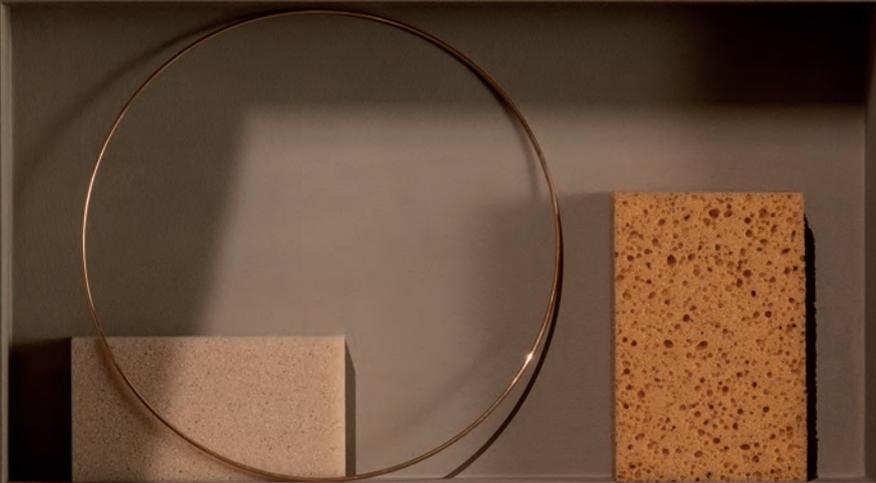

You can never have enough storage, but Epos goes one step further. On the 100 cm furnitures you can choose either drawers or open storage – or both. But smartest and most innovative feature of all is the side storage. On the front there is an open storage where you can put your most attractive products on display. At the back with opening onto the side, is another storage for items you don't want to put in the front.

DK

The designers behind DK are Morten Voss and Stinne Knudsen. In true Danish design spirit, the result is a beautiful symbiosis of aesthetics and function. The feel of wood teams up with white to emphasise the light, spacious Scandinavian feel.

DK vanity unit 100×45 white/blonde oak with 2 drawers. SVALE washbasin Solid Surface 100×45 white. SWEET Washbasin mixer mat white. DK Leg frame 100 matt white. DK handle white. ISTA mirror 100 LED. ERICA thermoheater 300W matt white. SAVON free standing Solid surface bathtub.

ALREADY A BATHROOM CLASSIC.

The clean lines and minimalist expression leave no doubt – this is Danish design at its best. Designed by Morten Voss and Stinne Knudsen. Morten is self-taught and opened his studio in 1994 in Copenhagen. He is best known for his classic Flight-Deck table. Stinne graduated from the Danish Design School in 2001 and has since worked with product design and interior design. He designs the big shapes and she creates the detail and colours. A few years ago, the duo created DK for Svedbergs.

This furniture collection has a clean, spacious style without superfluous embellishment or unusual elements. It breathes calm and harmony. The focus is on creating a balance between the practical and the aesthetic. With its exclusive Scandinavian look, this collection is already something of a classic. Everything exudes quality. You'll notice it in the craftsmanship and details. Choose between different widths (60, 80, 100 or 120 cm) and colours (blonde oak, white, slate grey or white/blonde oak). Or choose an optional colour from Svedbergs' colour collection. Read more about it on page 190.

There's much more to DK than an attractive exterior. For example, take a look at what's behind the doors and drawers. The drawer inserts have compartments that make it easy to keep the contents tidy and organised. The drawer inserts are made of wood, an attractive and practical solution. A more exclusive type of insert is available as an option. The drawers are available with handles or a Push open function, and are fully extending (the drawer can be pulled out to its full length). EasyClean is included at no extra cost, a smart solution that makes it easy to clean the water trap.

Colour

Your choice of colour affects the overall look of the bathroom, regardless of whether you prefer an energetic look with sharp contrasts or harmony and matching colours. Think about the feeling you want to create, which can depend on how you plan to use your bathroom. Also bear in mind that a bathroom will have a different feel if it has a window that lets in natural light. With all the choice that DK offers, you can choose exactly the colour you're looking for. Choose between blonde oak, white, slate grey or white/blonde oak. You can also choose one of our optional colours: marine, ash grey, limestone, sand and sage.

1. DK vanity unit 60×45 white with 2 drawers push open. FALSTER porcelain washbasin 60×45 white. SWEET washbasin mixer chrome. DK mirror 120 white LED. DK tall cabinet 170×40 white with 2 doors. OVAL 170 free standing mineral composite bathtub.

2. DK Vanity unit 80×45 blonde oak with 2 drawers. DK washbasin Falster 80×45 white. SKULE washbasin mixer chrome. DK handle white. DK mirror cabinets 80 blonde oak with LED lighting and electrical socket. SIGYN heated towel rail 26×120 matt white. ERICA thermoheater 300W matt white.

The DK furniture collection is available with or without a leg frame. As you can see, the style of the furniture changes completely depending on your choice of components. The leg frames stand out with distinctive elegance, lending character both to the piece itself and to the whole bathroom. The product has a graphic look with carefully styled details. The leg frames come in two different heights, and in black or white.

Countertop

Countertop with a depth of 46 cm are available for “Free standing washbasins”. Choose between Sirius (black), Keon (grey) and Aura (white). All the countertops are made of Dekton, a material that is resistant to scratching, UV degradation, fading and high temperatures. It has a non-porous surface that is easy to clean. You decide the position of the basin: to the right, to the left, in the centre or a twin basin (60–100 cm countertops are only available for centre position).

THE CHOICE IS YOURS

Forma's high flexibility means that it suits most bathrooms, large and small alike. In short, you can mix and match it almost as you want. We provide the choice, you provide the vision and imagination. Choose between different front panels, colours, basins, mixers and handles. Almost everything is included, but you can add a few simple extras to further accentuate your personal style.

Our Forma furniture collection was introduced a few years ago and has proved extremely popular. We put this down to its timeless design. Forma furniture is easy to love and creates calm and harmony. The lines are straight and clean, providing a backdrop for the details and everything else you choose to put in your bathroom. You can vary the look of the furniture with your choice of front panels, basins, handles and mixers. We leave that up to you. According to our designers, Forma products are ideal for small and large bathrooms alike. The drawers have divider inserts that make it easy to keep the contents tidy and organised. The inserts are very durable and low-maintenance. Wooden drawer inserts are available as an option. An attractive and practical solution. Our smart EasyClean water trap is included, which makes cleaning much easier.

Countertop

The countertop is available in Dekton or Silestone. Dekton is an exceptionally hard material with a higher bend strength than granite. The material is UV-resistant, which makes the surface easy to clean and prevents fading. Choose between Sirius (black), Keon (grey) and Aura (white). Silestone is made of quartz, one of the world's hardest materials. A durable, scratch-resistant material. Choose between Tebas (black) or Helix (marbled). Read more in the Buyer's Guide on page 162.

How colours affect the overall look.

FORMA Vanity unit 60×35 white with 2 drawers. 5.530,- SAND porcelain washbasin 60×35. white 2.425,- SKULE washbasin mixer black matt. 4.710,- Handle M1 160cc black matt. ISTA mirror 60 frame LED. 5.845,- AMOR electric heated towel rail 10×140 black matt. 3.230,- ALTA wall mounted WC incl seat. 3.690,- WC fixture glass box 120 black. 7.805,- 180° straight corner shower 90×90 crystal glass with black matt fittings. 15.505,- YDING shower set 160cc black matt. 6.205,- A02 Towel hanger 2 hooks black. 180,- Ash grey, extra charge, see page 156.

Of course, the colour you choose for your bathroom furniture is important in determining the overall look. That's why we offer a choice of four standard colours and five optional colours. The standard colours are white, slate grey, blonde oak and black oak, and the optional colours are marine, ash grey, limestone, sand and sage. Read more about Svedbergs' optional colours on page 190.

Thanks to Forma's flexibility, the furniture suits any bathroom. It all depends on the look you want to create: spacious and airy, close and compact, or something in between. Of course, the colour of the furniture contributes to the overall feel. You can also work magic with colours on the walls and floor, lighting and other interior features to achieve the exact atmosphere you want. For this reason, when planning your bathroom it's important to think about the whole space, from floor to ceiling, for optimal results.

SKAPA

Never stop thinking, but try thinking less. At least if your bathroom isn't very big. Skapa makes your choice easier right from the start. That's because Skapa furniture is specially designed for small and medium-sized bathrooms.

SKAPA vanity unit 55×35 slate gray with 2 doors and 1 shelf. SKAPA washbasin 55×35 white. HALDE washbasin mixer black matt. SKAPA handle black. TIVED mirror 55 LED and washbasin lighting. Shelf Tived 55 black. ENAMELLED BATH 160×70 3/4 panel black. SKOGA bath shower screen 80 clear glass with black matt profile. YDING shower set 160cc black matt. Bath spout black matt. DIANAS electric heated towel rail 48×80 right black matt. Carcase tall cabinet 120×35 slate gray. Door tall cabinet 120×35 slate gray.

We test our bathroom furniture regularly to make sure it lives a long and happy life. It passes the tests because we work with materials of the highest quality, use our own DuraDry coating method and assemble all the furniture ourselves. Skapa is available in several widths, and in a white or slate grey finish. B1 chrome handles are always included as standard, and a range of optional handles are also available.

MIXERS

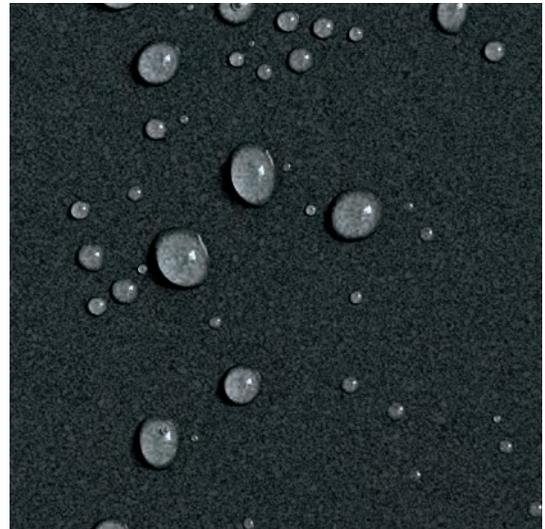

Mixers come in many designs and styles. Do you prefer a more classic or a more contemporary look? The mixer is a detail which influences the whole look of the bathroom. The design should feel right, both in your heart and for the harmony of the bathroom. Although the aesthetic look is important, mixers today are increasingly being given smart functions too. These may be functions that make life easier and more comfortable, or more environmentally friendly.

1. SKULE washbasin mixer lätttrad pencil black.

5. BOLD washbasin chrome.
6. KEBNE washbasin mixer black matt.
7. SKULE washbasin mixer lätttrad brushed brass.
8. EJER washbasin mixer black matt.

THINGS YOU DON'T NEED TO WORRY ABOUT

DuraDry – longer life for wooden furniture

Our own coating method, DuraDry, ensures optimal moisture resistance and long product life for our wooden furniture. By applying three base coats dried individually with UV light, followed by two air-dried top coats, we make our furniture exceptionally durable. The process is completed with acid curing paints and coatings that absorb into the material, sealing the wooden panels against moisture. One thing less for you to worry about.

EnduraDry – longer life for sheet metal parts

We manufacture all our sheet metal parts in-house using our own method, EnduraDry. For our cabinets and drawers we use galvanised sheet metal, a material originally developed for the automotive industry. The coating we have developed is based on nanotechnology. This combination provides an excellent surface finish that is extremely dense, durable and washable. Everything is done in a closed process at our own coating facility, using environmentally friendly methods and without the use of solvents. One thing less for you to worry about.

EasyMount – easy installation

Now you can install your wall-mounted bathroom furniture quickly, easily and safely. Our simple EasyMount hanging system requires fewer installation steps. It fixes to the wall with just two screws, causing less impact on the moisture barrier. This also makes it easier to make adjustments. One thing less for you to worry about.

Factory-installed electrics

All electrical components in our mirrors and cabinets are installed in our factory. The electrical components are S marked, CE marked and IP rated. Moreover, all the electrics are tested at our facility in Dalstorp before the product is delivered to you. Our equipment is regularly inspected to ensure the highest safety. One thing less for you to worry about.

Environmentally friendly lighting options

LED lighting has a lifespan that is roughly 50 times longer than a light bulb and 3–4 times longer than strip lighting. LED lighting is also environmentally friendly because it has low energy consumption and contains no mercury. LED lights can take frequent on/off cycles and light up without delay. Yes, we use LED lights in our products. One thing less for you to worry about.

MIRRORS

WIIBOBS

This year we've got more mirrors than ever for you to choose from. Some of them have lighting with adjustable brightness and colour temperature (perfect for makeup or shaving), some provide atmospheric background lighting, and others are just mirrors with no lighting at all.

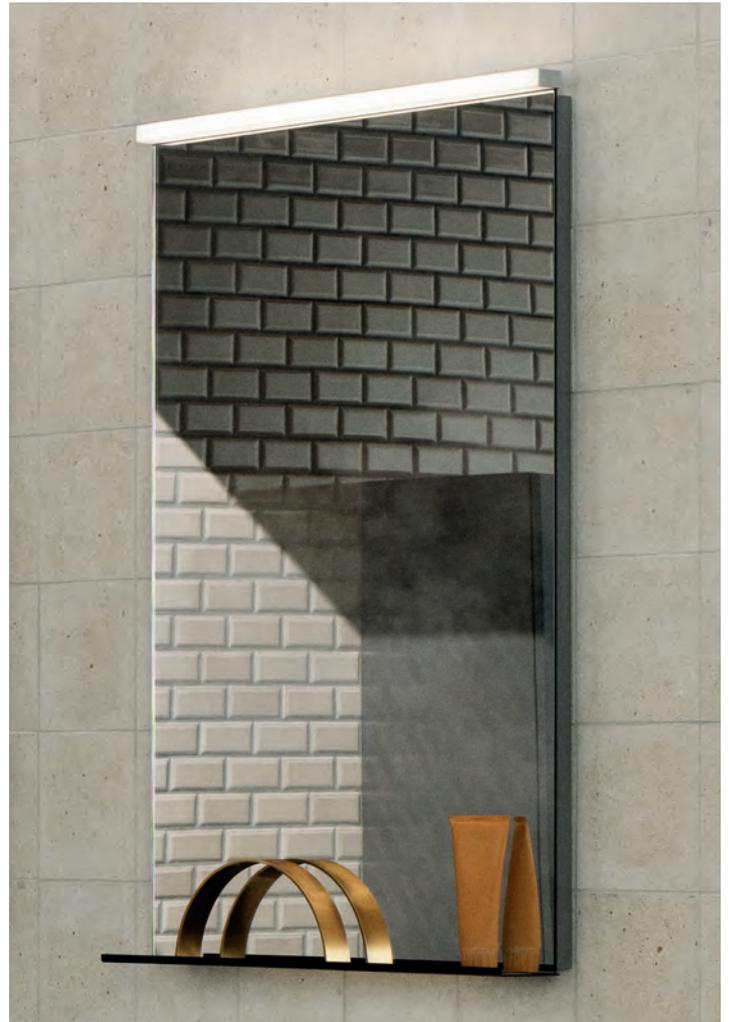

TIVED

A classic flat mirror available in three versions and many different widths. Choose a mirror without lighting, with overhead lighting, or with overhead lighting and basin lighting (the light shines down onto the basin). You can also add a shelf and a standalone LED light fixture.

Tived is available in widths of 40 (only without lighting or with a light strip), 45, 50, 55, 60 and 80 cm. Choose between LED lighting, LED and basin lighting or no lighting. Read more on page 83.

1. TIVED mirror 60. 2. TIVED mirror 60 LED. 3. TIVED mirror LED and washbasin lighting. 4. TIVED shelf 60 black. 5. LED-LAMP 30 chrome.

Read more about lighting options on page 83.

VALJE

Mirror with atmospheric background lighting. Choose between a full range of options to find the perfect size and shape for your bathroom, from square or rectangular to round. You can add lighting to the rectangular mirrors, as well as a pendant light.

Valje comes in a rectangular version in widths of 60, 80, 100 and 120 cm. Rounded in width of 120 cm. Round with diameters of 60, 80 and 100 cm. Oval 45×110 cm or twin round 80×60 cm. You can add optional lighting to the rectangular bath. Read more on page 83.

1. VALJE Mirror Valje 80 LED. VALJE lighting 80 LED.
2. VALJE mirror round Ø80 LED.
3. VALJE mirror oval 45×110 LED.
4. VALJE mirror rounded 120 LED.
5. VALJE mirror Ø80+Ø60 LED.

ISTA

Mirror with touch control of brightness and colour temperature. The lighting is dimmable, and the light temperature can be adjusted to an optimal level, whether it's for makeup or mood lighting.

Ista comes in a rectangular version in widths of 60, 80, 100 and 120 cm, or a round version with diameters of 60, 80 and 100 cm. All sizes are available with or without a black frame.

1. ISTA mirror 80 LED.
2. ISTA mirror 80 frame LED.
3. ISTA mirror round Ø80 LED.
4. ISTA mirror round Ø80 frame LED.

Ista comes in four styles: Round and rectangular, with or without a black frame.

DK

The upper unit from DK combines aesthetic appeal with practical function. Choose whether you want the cabinet on the left, on the right, or both.

Valje lighting

The rectangular mirrors can be supplemented with an optional LED light strip. The extra lighting will light up your whole bathroom and create a pleasant atmosphere.

Tived shelf

You can supplement your Tived mirror with a stylish black or white metal shelf. It provides useful extra space for storing items or displaying your accessories.

Pendant light

Beautiful interior feature or better lighting? By fitting one or more pendants, you'll get both. The pendant's appearance and light quality can be varied by using different bulbs.

LED light

Compatible with the Tived mirror and the Line mirror cabinet. Choose between widths of 30 and 50 cm, and between a chrome or black finish. The LED lighting creates a soft, pleasant light in your bathroom.

Vain

A practical magnifying mirror for when you need to get a little closer. It provides 5x magnification. Vain is easy to install and is height-adjustable.

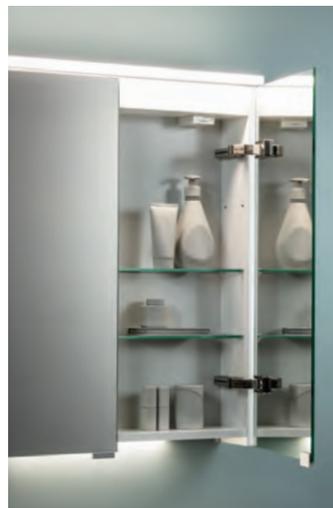

MIRROR CABINETS

Svedbergs' classic mirror cabinet. This is where it all started long ago. We firmly believe that we're unbeatable at mirror cabinets. We offer a variety of sizes, heights and depths to fit your bathroom perfectly. To keep full control of the process, we install all the electrical components in our factory, all of which are S marked, CE marked and IP rated.

SAREK

A practical bathroom cabinet, only 12 cm deep. Flexible and practical with two moveable glass shelves and an electrical socket in the cabinet ceiling. Energy-efficient LED lighting included, with the option of adding basin lighting. Manufactured using our unique DuraDry method.

Sarek is available in widths of 40, 45, 50, 55, 60 and 80 cm, and in a white or slate grey finish. Also available in black oak and blonde oak in widths of 50, 60 and 80 cm.

SAREK mirror cabinets 60 white LED and washbasin lighting.

The electrical socket is handily located in the cabinet ceiling, making it easily accessible but invisible.

SKURU

A clean, minimalist style that creates an exclusive atmosphere in your bathroom. This is largely due to the LED lighting, which has a knob for steplessly adjusting the colour temperature and brightness. Electrical socket, basin lighting and a smart magnet for holding small objects such as tweezers.

Skuru is available in white, slate grey, blonde oak and black oak, and in widths of 50, 60, 80, 100 and 120 cm.

SKURU mirror cabinets 80 white LED.

HAMRA

A mirror cabinet that combines a modern look with rustic craftsmanship and looks great with many different styles. The lighting can be varied from functional to atmospheric. A fun detail is the practical magnet for holding small objects such as nail scissors.

Hamra is available in widths of 50, 60, 80, 100 and 120 cm and in white or slate grey.

HAMRA mirror cabinets 60 white LED.

The difference is in the small details. Like being able to adjust the brightness and colour temperature of your lighting.

SOBER

Classic and practical mirror cabinet with LED light at the top and bottom. The upper light provides mirror lighting, while the lower light illuminates the basin. Available in several widths and colours. With 230 V electrical socket.

Sober is available in the following widths: 60, 80 and 100 cm. Choose between white, slate grey, blonde oak and black oak.

SOBER mirror cabinet 60 white.

INTRO

Hard-wearing mirror cabinet made of galvanised sheet metal, a material originally designed for the automotive industry. Our unique EnduraDry coating with an environmentally friendly zinc-iron alloy provides excellent protection against rust.

Intro is available in widths of 45, 50 and 55 cm. And you can choose between the colours white, sand, salvie and graphite grey. You can add Dovre LED lighting as an optional extra.

INTRO mirror cabinets 55 graphite grey.
DOVRE lighting 55 graphite grey LED.

 10. MEDICINE CABINET Cabinet/Metal 11. JENNY mirror cabinet white.

Read more in Buyer's guide on page 168.

A modern bathroom interior with light blue walls and white shelves. The shelves are filled with various white ceramic and glass items, including vases and bottles. In the foreground, a tall, rectangular, light-colored vase holds a large bouquet of white flowers. The floor is dark grey, and the overall aesthetic is clean and minimalist.

STO

RA

GEE

You've got one bathroom and you're faced with the challenge of how to fit all your things into a few square metres of space, which was actually designed solely for hygiene and relaxation. What's more, you want the wall cabinet and the mixer to have a cool design, and you want an EasyClean water trap on the washbasin. Oh, and the ornamental grass in the vase should preferably be of a unique variety. This is the image that many people want to achieve. Bathrooms have become the new kitchen. This means they can't be messy.

You might deliberately decide to create a disorderly look, but this should always be a conscious style choice, never an accident. So the question remains: where should you put all your things? The key is a combination of smart storage and a classic methodical approach. Let's start with the method. Take everything out of your bathroom cabinets and drawers. Get rid of everything you didn't even know you had or don't need anymore. Then divide everything that's left into categories, such as towels, makeup, electric toothbrushes and nose hair trimmers, bath toys, skin creams, toilet roll, champagne coolers, etc. Now take each group of items one at a time and rearrange them

in your cabinets and drawers in a neat, tidy and orderly way. After this, you might find that some items still don't fit into your cabinets and drawers. In that case you have two options. One is to buy more storage. If you haven't got room for more storage units, you'll need to go through it all again and get rid of more things. If there still isn't enough room for everything after this, you might seriously consider getting a new home with a bigger bathroom. Or multiple bathrooms. The other option is to accept the bathroom you've got and embrace a degree of charming disorder. Light a scented candle and relax. Whatever you choose, good luck with your storage!

We make your bathroom life easier.

When we develop and design our bathroom furniture, we focus on aesthetics and function in equal measure. What looks good is a question of individual taste, but there's no arguing with practical and smart design. We offer smart, functional solutions that improve comfort and practicality while helping you keep things neat and tidy. Here are six examples of things we at Svedbergs have done to make your bathroom life easier.

- Pull-out drawers provide an easy overview of the contents.
- Built-in charging points for electric toothbrush, hairdryers and hair straighteners. The module is made of metal, so the hair straightener can be put down without a risk of fire.
- Our tall storage units can easily be supplemented with open side storage to increase their total width. This is a great way to display stylish bathroom products that add an exclusive look to your bathroom.
- Our EasyMount hanging system makes it easy to install your bathroom furniture with just two screws.
- Lighting both inside and under the cabinets is practical and looks attractive and cosy.
- Our practical laundry basket can be combined with our laundry cabinets and is easy to lift out and carry to the washing machine.

Read more in the Buyer's guide on page 169.

A laundry room in your bathroom

If you have some space to spare in your bathroom, you can create your own laundry room. We've developed smart solutions that fit into most bathrooms. It's simply about making optimal use of the space available.

SHOWER

Somebody has estimated that we spend just over 48 hours a year under the warm water of the shower. More than half of us sing while showering, and about the same number reflect on life. This is interesting because it says quite a lot about our shower habits. For people today, showering isn't just about getting clean; it's also a source of relaxation and reflection. That's why we offer you so many different types of showers – because people shower for many different reasons.

LANGFOSS

One of Norway's highest waterfalls inspired us to create a shower with plenty of glass and space. Thin, graphic profiles create a clean, minimalist look. The wave-shaped textile adds a spectacular element as well as an exclusive, cosy feel. We invite you to experience Langfoss, five kilometres south-west of the Norwegian village of Fjæra – or at home in your bathroom.

The trend is clear: many people's dream bathroom today has a minimalist design with elements of hotel decor. The shower is one of the central features. Jets of water that caress your body after a long day, or a gently wake you up in the morning.

Langfoss shower screens have profiles and details that create a graphic, stringent look. An exclusive feel. The floor profile has a matching style. The billowing fabric adds softness and absorbs sound, but also serves a practical purpose. Pull the drape aside to display your spa products and other items, or pull it closed for privacy. If you like to frequently change your decor, nothing could be easier. Simply change the fabric whenever the whim takes you. The fabric comes from Ludvig Svensson, a company with long traditions and many years of experience, and with high standards of design and durability.

Another smart solution is a shelf that is fitted directly onto the glass, so there's no need to drill into the surface. The shelf also has a practical spacer and mountings for easy removal and cleaning. And as if that wasn't enough, Langfoss is also easy to install.

Sizes & optional extras

- Available in crystal or smoked glass, with matt aluminium or black matt profiles.
- The fabric is available in off white, granite grey or ash grey. A range of optional colours are also available.
- With or without a shelf
- 200 or 230 cm high
- 80 or 90 cm wide
- Toughened safety glass 6 mm.

1. LANGFOSS shower screen 90×230 black matt profile and crystal glass. Shelf. LANGFOSS curtain rail 90 black matt. LANGFOSS curtain 90×230 ash grey.
2. LANGFOSS shower screen 90×200 aluminium matt profile and crystal glass.
3. LANGFOSS shower screen 90×200 black matt profile, smoked glass and shelf.

Design is about sustainable thinking

He's part of Svedbergs Inhouse, the company's design and product development department. It's like a big beating heart at the centre of the factory.

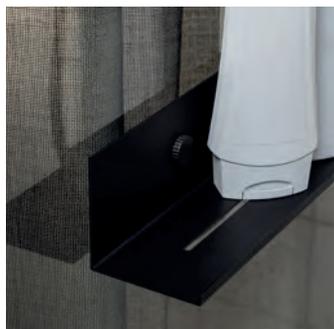

"Our closeness – both to each other and to the products – is unparalleled," says Johan Körner, Design Manager at Svedbergs.

This is where most of the company's products are designed, developed and manufactured. Having all the resources collected in a single place makes the process of starting new projects easy and efficient.

Inspiration for the designs comes from many sources, from interior design magazines, digital channels, traveling and furniture shows. Johan stresses the importance of keeping an open mind in the initial product development phase.

"We're curious about other related industries, including furnishing and other less closely related sectors such as architecture. The businesses we study the least are other bathroom manufacturers. We prefer to distance ourselves from them to maintain our individuality." Svedbergs' style is based on a combination of design and durability, in the timeless Scandinavian design tradition.

Read a longer version of the interview with Johan Körner at [svedbergs.com](https://www.svedbergs.com)

Langfoss is available with several types of glass. Choose between crystal and smoked glass with matt aluminium or black matt profiles. You can choose between widths of 80 and 90 cm, with or without a shelf. The fabrics are from Ludvig Svensson, a well-known and innovative company that has designed and manufactured fabrics for over 130 years with focus on design, quality and function. Choose between the colours off white, granite grey and ash grey. The fabric is also available in several other colours as an optional extra. Choose from Ludvig Svensson's Salt collection on our website. The delivery time is longer if you choose an optional colour, about four weeks. The curtain rail is available in the same colour as the profiles; matt aluminium and black matt.

3

Shower screen

Our 180° shower collection offers a variety of beautiful and practical shower screens. Which type is best suited to your bathroom? A solid screen, a screen with a door or a screen for combining with a bath? All three solutions are practical and enhance the design of your bathroom.

1. 180° fixed Shower screen Rista 88 black matt and clear glass.
2. 180° Shower screen 88 chrome crystal frosted glass.
3. 180° fixed shower screen 88 black mat profile and clear glass.

Corner shower

There's a lot to be said for the corner showers in our 180° collection. Maybe the smartest thing of all is that the doors can be folded inwards when the shower is not in use to free up floor space. What's more, the doors finish closing automatically. And that's before even mentioning the corner showers' attractive design.

1. 180° straight Corner shower 90×90 black matt and clear glass.
2. 180° straight/fixed Corner shower 90×90 chrome clear glass..
3. 180° straight corner shower 90×90 chrome clear glass.

1

2

3

Alcove single and double

If you've already got three walls and want to build an alcove shower, we've got various solutions: single, double and double combination. The large glass panels create a light and airy look and are easy to clean. The handles, hinges, rod and floor mounting enhance the overall look.

1. 180° double alcove shower 156,5 chrome and clear glass.
2. 180° straight/fixed double alcove shower 156,5 black matt and crystal frosted glass.
3. 180° alcove shower 78,5 chrome and crystal glass.

Shower screen bath

This is a practical, attractive solution if you want to combine a bath and shower. The hinges are chrome and all fixings and clamping screws are concealed. The gap against the wall is only 8 mm, which minimises splashing. The door can be folded inwards against the wall when the shower is not being used.

180° shower screen bath 81 chrome crystal glass.

Corner shower, bath

A version of the shower screen with two doors instead of one. A popular solution for everybody who wants a combined bath and shower. The hinges are chrome and all fixings and clamping screws are concealed. The gap against the wall is only 8 mm, which minimises splashing. The doors can be folded inwards against the wall when the shower is not being used.

180° corner shower bath 83×83 chrome clear glass.

Special showers

All homes have their own unique features, dimensions and angles. If you can't find a shower that fits, we can customise all the measurements to your requirements. For more information, buyer's guide on page 175.

SKOGA

It is named after Iceland's largest waterfall and inspired by its natural beauty, power and possibilities. Focus is on design and flexibility, and the result has become a mantra: there's a Skoga for every bathroom. Whether your bathroom is large, small or has an unusual shape.

This shower collection enhances and frames your bathroom with a design that is easy to love. All Skoga products have a contemporary, clean style, whichever version you choose. Whether your bathroom has an irregular shape, a high ceiling or is completely normal, there's always a perfect Skoga product. You can even get certain models in a height of 225 cm. This collection also has many smart details. Lifting hinges make the door easier to open and close. The seal sits tightly against the floor, which prevents splashing. And on some models, the doors can be folded inwards to free up floor space. The practical profiles allow for pipe installation.

Facts & optional extras

- The glass is available in clear, semi-frosted, frosted and smoked.
- The profiles come in the colours white matt, aluminium matt, aluminium shiny and black matt.
- Three handles
- Toughened safety glass 6 mm.
- Can be customised to your bathroom's specific needs.
- Shower seat. Available as option.

Skoga is available with a choice of Knob, hole or handle.

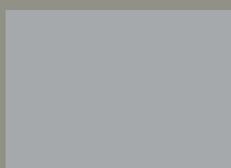

A shower seat is available as an optional extra, which folds down when not in use.

Corner mounting bar is available as an optional extra.

Black matt

Aluminum matt

White matt

Aluminum Polished

Clear glass

Semi-frosted

Frosted glass

Smoked glass

Straight shower corner

The design has a strict, almost graphic feel. The smart lifting hinges make the doors easier to open and close, and the seal sits tightly against the floor to prevent splashing. The doors can be folded inwards to save space when the shower is not in use. Although the profiles are slim, they still allow pipe installation.

1. SKOGA corner shower 90×90 white matt profile and clear glass.
2. SKOGA straight corner shower 90×90 aluminium matt profile and semi-frosted.
3. SKOGA straight/fixed corner shower 80×93 black matt profile and frosted glass.

Corner shower, round

The soft, flowing design creates calm and harmony. The semi-frosted glass panel screens privacy protection, but other options are available too. The hinges make the doors easier to open and close, and the seal sits tightly against the floor. The profiles allow for pipe installation.

1. SKOGA quadrant corner shower 90×90 black mat profile and smoked glass. Integrated handle.
2. SKOGA straight/round corner shower 80×127 aluminium matt profile and clear glass.
3. SKOGA quadrant corner shower 90×90 aluminium matt profile and semi-frosted. Integrated handle.
4. SKOGA round 95×80 aluminium matt profile and clear glass.

Shower screen

Skoga shower screens are available in many versions, but they all convey the same basic style. The hinges make the door easy to open and close and the seal sits tightly against the floor. The rod can be used to transform a moving door into a fixed door. Although the profiles are slim, they still allow pipe installation.

1. SKOGA straight shower screen 90 aluminium polished profile and frosted glass.
2. SKOGA straight shower screen 80 white matt profile and clear glass.
3. SKOGA fixed shower screen 90 aluminium polished profile and clear glass.
4. SKOGA quadrant shower screen 90 white mat profile and frosted glass.

Alcove, single or double

A shower experience starts long before you turn on the mixers, and stops long after the shower is over. With its attractive design, Skoga transform the shower into a beautiful bathroom feature. And the practical details maximise floor space and minimise splashing..

1. SKOGA double alcove shower 178 white mat profile and frosted glass.
2. SKOGA double alcove shower 158 black matt profile and clear glass.
3. SKOGA Double alcove shower combi 160 aluminium polished profile and clear glass.
4. SKOGA single alcove shower 90 aluminium polished profile and frosted glass.

Shower screen bath

A smart solution to prevent water splashing all over the bathroom. The door can be folded inwards when not in use.

SKOGA straight shower screen bath 80 aluminium matt profile and frosted glass.

Corner shower bath

A corner shower on your bath prevents splashing. What's more, the doors can be folded away when not in use.

SKOGA straight corner shower bath 83×83 aluminium polished profile and clear glass.

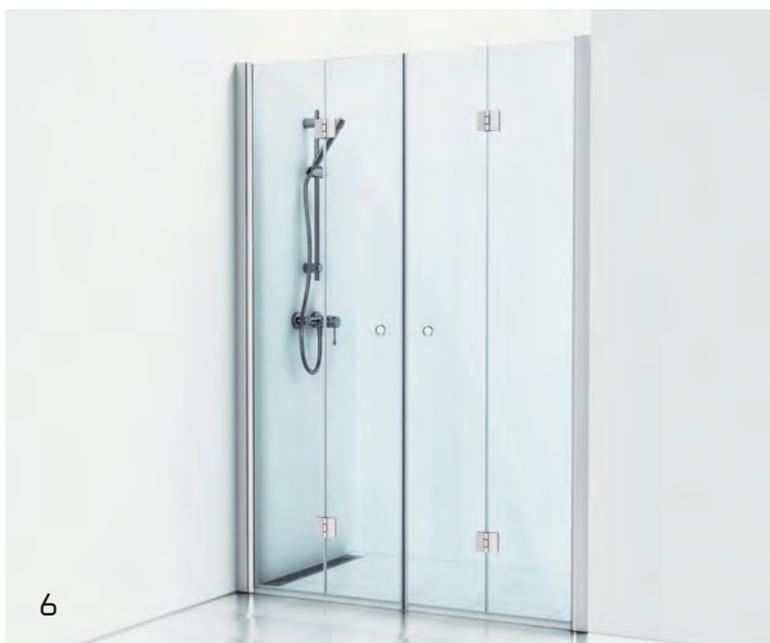

Folding screen shower

The great advantage of a folding screen shower is that it fits all bathrooms and takes up minimum space. Function and practicality take centre stage. Build it exactly the way you want. Start by choosing a model. Then choose the glass, the colour of the folding screens, and finally the size. It couldn't be easier.

Our folding screen showers are designed to fit all bathrooms and take up minimum space. As their name suggests, these showers fold away when not in use. Choose between different models and designs to find the perfect solution for your bathroom. Assemble your folding screen shower in three simple steps. Read more on www.svedbergs.com

1. SKOGA foldable corner shower 90×90 aluminium matt profile and clear glass. Integrated handle.
2. SKOGA foldable/fixe double alcove shower 180 black matt profile and frosted glass. Integrated handle.
3. SKOGA foldable shower screen 90 aluminium matt profile and clear glass. Integrated handle.
4. SKOGA foldable single alcove shower 90 aluminium polished profile and semi-frosted. Integrated handle.
5. SKOGA foldable/fixe corner shower 90×93 black matt profile and clear glass. Integrated handle.
6. SKOGA foldable double alcove shower 138 aluminium matt profile and clear glass. Integrated handle.

RITUAL

An attractive and practical solution with many great functions. Ritual is available in several versions to suit your bathroom's characteristics and your needs. All of them are space-saving, fitted with safety glass and offer a wonderful shower experience. Whichever one you choose, you'll have a new Ritual to cherish.

Facts & optional extras

- Classic: a shower enclosure delivering comfort and safety.
- Premium: like Classic but with integrated knobs and an overhead shower.
- White with clear glass or frosted glass on back walls.
- Optional shower seat.

1. RITUAL shower enclosure Premium 91x91 white clear glass. 2. RITUAL shower enclosure Classic 91x91 white clear glass/frosted glass. 3. RITUAL alcove shower 85-90 white clear glass. 1 door. 4. RITUAL alcove shower 140-145 white matt clear glass. 2 doors.

BATHS

Throughout history, people have praised the positive effects of taking baths. Besides feeling great, bathing is also good for the mind and body. Our products are also a delight for the eye, with a range of designs to suit your chosen bathroom style. Our baths are also available in a variety of materials with different properties. There's never been more choices.

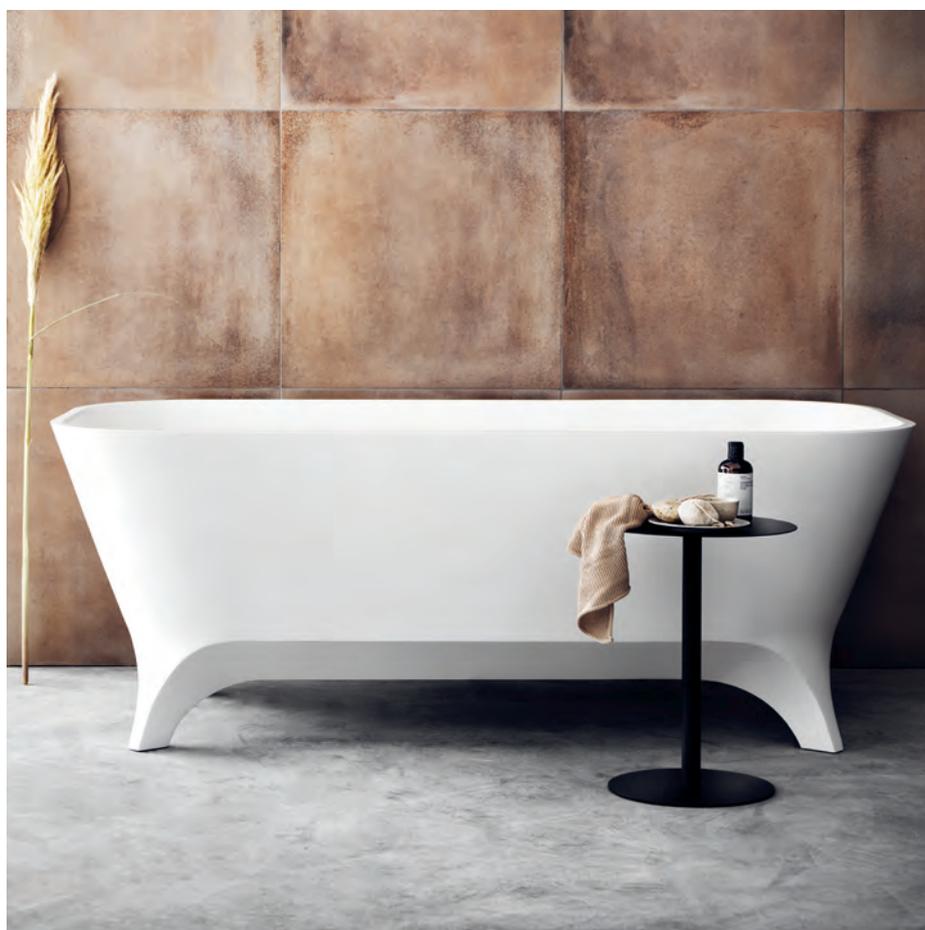

SOLID SURFACE

Solid Surface is a non-porous composite material with many benefits. It is exceptionally durable, very hygienic and low-maintenance. What's more, thanks to its high malleability, this material offers many design possibilities.

Savon

Savon is our new, spacious and exclusive bath made of premium quality materials. Solid Surface can give furniture a matt, silky finish and attractive contours. The Savon bath's sturdy, integrated legs give it a distinctive look.

MINERAL COMPOSITE

Mineral composite is a solid natural material, an artificial marble that is both durable and malleable. It keeps your bath water warm for a long time, so is perfect if you love taking long baths. This material also makes an extremely robust bath.

Reyk

Reyk is crafted out of cast marble, a durable natural material made from crystallised rock minerals. It brings to mind natural hot springs. Because cast marble is an excellent heat insulator, it gives you a more pleasurable bath while sparing the environment. Add a wall-mounted mixer.

Scarlett

A practical, comfortable bath with a classic design. The head end is raised, both for aesthetic effect and to provide comfortable support for the back. And because it's free-standing, the bath can be placed virtually anywhere you want it. Add a wall-mounted mixer.

Oval

A deep cast marble bath that provides exceptional bath experiences. Ergonomic design with soft rounded shapes. Available in two sizes. Add a wall-mounted mixer.

Design: Pelikan Copenhagen

LUCITE

Because Lucite is extremely malleable, it can be used to create baths in almost any shape and design. It has a colour-fast surface finish that feels luxuriously warm and soft to the touch. The material is easy to clean because the extremely smooth surface makes it easier to clean.

Barb

The oval shape creates a soft, modern look. Due to its free-standing design, the bath looks elegant and can easily be installed in most bathrooms. It is spacious with a generous bath depth. A wall-mounted mixer can be added.

Ume

Ume has a round ergonomic design that makes it very comfortable to sit in. Bath depth 45 cm. Supplied complete with drain connection. Add a wall-mounted mixer.

Eno

Eno is rectangular and angled so you can lay back comfortably. Minimalist design with straight lines. Bath depth 44 cm. Smart drain position. Supplied complete with drain connection. Add a wall-mounted mixer.

Lule

Design and function in one bath. Round and ergonomic. Made of Lucite, which is stronger than acrylic and has a more luxurious surface. Finns i två storlekar, 158 och 170. Add a rim- or wall-mounted mixer.

ACRYLIC

A synthetic fibre that has been used in various applications for many decades. This material gives your bath a warm, soft surface finish that's smooth to the touch. Acrylic is a highly durable material with low moisture absorption, making it easy to keep clean. All this, combined with the material's high malleability, accounts for its enormous popularity.

Z160

An attractive, simple bath that is ideal for one person. The soft, rounded lines look great and provide exceptional comfort.

Buzz

A compact corner bath with integrated front panels, ideal for small bathrooms. Practical surfaces for soap, shampoo and bubble bath. The perfect choice for families.

Belle

A classic clawfoot bathtub that adds style to any bathroom. A luxurious, distinctive look. Modern, comfortable and functional. The head end is slightly raised to provide comfort and support for your back. Claw feet are available in chrome, brass, bronze and white matt.

Classic

An attractive and comfortable bathtub with a classic design featuring claw feet. The slightly higher end provides comfortable support for the back. Claw feet are available in chrome, brass, bronze and white matt.

Bath with shower Z150, Z1600 and Z1700

Three practical bathtubs with plenty of shower space. Perfect if you have a small bathroom but want both a bath and a shower. Available for right-hand or left-hand installation (the large picture shows right-hand installation). Can be supplemented with a shower screen. See page 111 and 121.

ENAMEL

A favourite for many decades, this natural material has gained an almost iconic status. Most bath scenes you've seen in movies featured an enamel tub. This material is not only beautiful, but also practical, robust, durable and scratch-resistant.

Tofta

A traditional bath in classic enamel with a spacious ledge for standing things on. Maximum wear protection. Stable on all surfaces.

Enamel bathtub

Enamel bath made of enamelled pressed steel.
An optional panel can be added to create a solid front (available in white or black).

Sit-up bath made of enamelled pressed steel.
Ergonomic shape and carefully designed seating area for maximum comfort and easy access.

Steel bath with enamelled finish. Available in several sizes. See the Buyer's Guide page 185

MIXERS

Choosing the right mixer tap isn't always easy. We've made your job easier by presenting a range that is specially designed to go with our other products. It's all about style, function and design. Can it get any easier?

1

2

Yding and Stuur

Your choice of overhead shower will determine your shower experience. If you want a luxurious waterfall feel that envelops your whole body, choose an overhead shower head with the widest possible diameter. Stuur is our largest overhead shower head ever, with a 40 cm diameter. Stuur and Yding are both sold as part of a complete kit with an overhead shower, hand shower and thermostatic mixer. Our thermostatic mixer is pressure-balanced to provide even temperature, high comfort and protection against scalding.

Read more in the Buyer's Guide on page 187.

- 1. YDING shower set 160cc black matt.
- 2. STUOR showerset 160cc chrome.

Spika

Here you can put together your own shower set based on your bathroom's characteristics and your unique needs and preferences. Choose between an overhead shower kit or a shower set if you prefer a hand shower. Or why not both? The hand shower has three functions that enhance your shower experience and add variety. You can also choose between a bath mixer and a shower mixer. Whatever you choose, our thermostatic mixer is pressure-balanced to provide even temperature, high comfort and protection against scalding.

Read more in the Buyer's Guide on page 187.

- 7. SPIKA bath mixer 160cc chrome.

HEATED TOWEL RAIL

There's plenty to love about our heated towel rails, such as the luxurious hotel feeling of enveloping yourself in a warm towel after a shower. The towel rails also look stylish, whether they're electric or centrally heated. On the next page we explain what type of heated towel rail is best for your bathroom.

WHICH HEATED TOWEL RAIL SHOULD YOU CHOOSE?

There are essentially two types of heated towel rail to choose from: electrically heated or centrally heated (water-heated). You also have the option of combining the two types. Your choice should be based on the type of heating system in your home.

An electric towel rail simply plugs in and is ready to use. Most of our heated towel rails have both a timer and a boost function built in for extra energy savings. The timer is used to schedule the towel rail to switch on and off at pre-set times. The boost is used to speed up the heating process.

The great thing about a water-heated towel rail is that it utilises the heat already circulating in your home. Simply connect it to your

existing closed water system. During the warmer months of the year, when the water in the heating system doesn't heat up as much, you might need some help from an electric valve. We have two different types to choose between. The simpler type can be adjusted between 30°–60° C and has a built-in switch. The more advanced type also has a timer, boost and antifreeze function, but needs to be supplemented with an additional valve.

Finally, be very careful when choosing the position and height of your heated towel rail, as different models can vary widely in height and design.

For more information about our heated towel rails, visit www.svedbergs.com

1

2

3

4

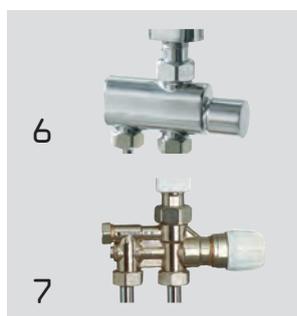

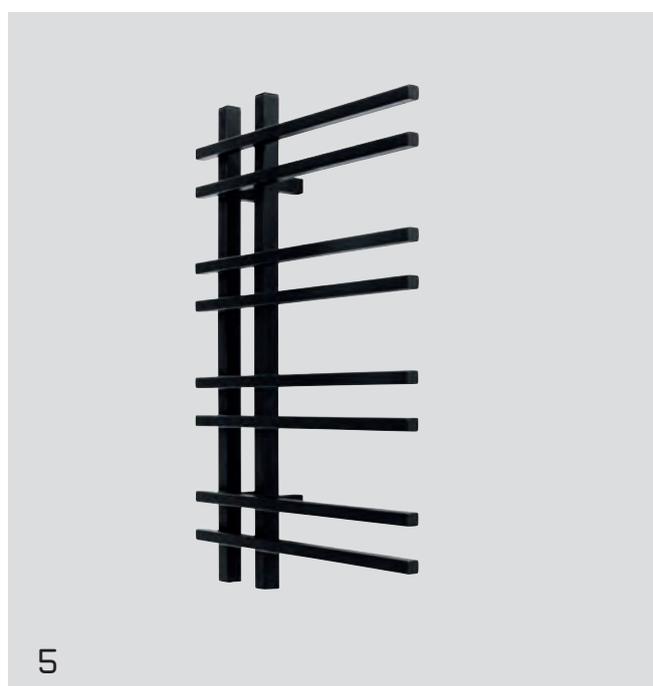

5

Electrical

Plug the socket and switch it on. Timer and boost functions are included to help you save extra energy.

1. FLORAS electric heated towel rail 50×65 left. 2. LOKI electric heated towel rail 48×80
 3. AMOR electric heated towel rail 10×85 polished. 4. AMOR electric heated towel rail 10×140 polished.
 5. DIANAS electric heated towel rail 48×80 left polished.

6

7

8

9

Water connected

Can be connected to your existing closed water system. You might need an electric valve to heat the towel rail during the warmer months of the year. Why not choose one with a timer, boost and anti-freeze function? A water-heated towel rail can also be heated with only electricity. This requires an electric heater.

1. ZAGA heated towel rail 26×120 black. 2. EASY heated towel rail 80×50 chrome. 3. BAS heated towel rail 50×100 white matt.
4. SIGYN heated towel rail 26×120 white mat. 5. VENTO heated towel rail Vento 55×80 black mat.
6. Valve chrome. 7. Thermostatic valve 8. ELECTRIC ELEMENT 300W Chrome. 9. ERICA electric element 300W black.

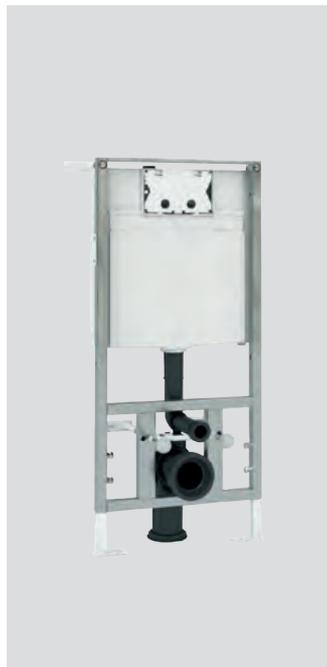

Read more in Buyer's guide on page 188.

WC

Few people think of the WC as an interior design feature. That's rather a pity. Because this special seat has a prominent position in many bathrooms. With all our practical and functional details, we believe it's time to raise the WC's status. And we're not just talking about the seat height, but also its design.

Our Alta and Lossen WCs are available with a black, chrome or matt chrome flushplate. The WC module is compatible with both models and makes installation easy.

Alta
9072 rimless

Wall-mounted model that makes cleaning easy. Elegant design with thin shapes. Integrated and easily removable hard seat, with soft-close function (the lid closes slowly and silently).

Lossen
9071 rimless

An attractive design with a thin seat that matches the shape of the WC. A practical model that's hygienic and easy to clean. Integrated, light, removable hard seat with soft-close function.

Smart and elegant WC module

An elegant WC module that enhances the look of your bathroom.

The market's first WC module with an S-bend design.

Hygienic and easy to clean.

Environmentally friendly – dual flush system.

Only 41 cm wide, fits easily into existing space.

Comfortable seat height, approx. 43 cm (depending on WC model).

Smooth glass surfaces, choose between white and black.

Safe and simple maintenance, with all parts easily accessible behind a simple glass surface.

Distance from wall to CC sewage is between 95–140 mm (18 cm).

Choose between different WC models.

9085 and 9087

Things that are included but hidden

- Comfortable seat height
- Easy to clean
- Removable seat with quick-release hinges
- Easy adjustment of water volume
- Condensation-free cistern
- Spare parts in stock

Find more details about our WCs on www.svedbergs.com

Read more in Buyer's guide on page 189.

ACCESSORIES

It's like the icing on the cake. Little details make a big difference. Carefully designed accessories like our gorgeous hangers for your towel or bathrobe. Details that lift the design of your whole bathroom.

1. A01 Towel hanger 1 hook black 2. A02 Towel hanger 2 hooks brushed. 3. A04 Towel hanger 4 hooks chrome
4. Shelf 325 white matt. 5. A01 Towel hanger 1 hook chrome 6. O02 Towel hanger 2 hooks brushed.
7. O03 Toilet paper holder chrome. 8. A03 Toilet paper holder black. 9. O01 Towel hanger 1 hook chrome.
10. A02 Towel hanger 2 hooks black. 11. O04 Towel hanger 4 hooks chrome.

BUYER'S GUIDE

Did you browse through all the pages before finally getting here? If so, we hope you enjoyed the journey. Or did you use the table of contents and take the quick route here? Either way, now you're a few steps closer to your new bathroom. Because it's in the Buyer's Guide that it all happens. It's here your dreams become reality. Measuring tapes are unfurled, colours are discussed, vetos are pronounced, vanity units are compared and, likely, dissected. Just remember one thing: what you're about to create is so much more than a bathroom. It's a room for you to live and enjoy. Good luck!

LANGFOSS

- Minimalist with a sense of hotel.
- Caring sense of showering.
- Fabric from Ludvig Svensson, gorgeous and practical.
- Shelf that is assembled directly on the glass.
- Easy to clean.

Langfoss is delivered complete with a curtain rail (max 105 cm), floor- and wallprofile for adjustment up to 20 mm. Hardened safety glass 6 mm. The existing wall profile doesn't allow hole for e.g. water pipes, but you can buy such a profile that admit pipework. Besides, you can add a curtain rail and curtains that is available in various colours.

BATHS

SOLID SURFACE

A malleable, low-maintenance material. It is exceptionally durable and hygienic.

MINERAL COMPOSITE

Artificial marble that that is highly shapeable and very hardwearing. The material keeps the water warm longer.

LUCITE

Lucite has all the benefits of an acrylic material but offers additional, even better properties. It is stronger than acrylic and has a luxurious surface finish that feels warm and soft to the touch and retain colour-fast over time.

ACRYLIC

One of the oldest synthetic fibres on the market. Acrylic is hardwearing and easy to clean. It is also highly shapeable, offering plenty of scope for exciting designs.

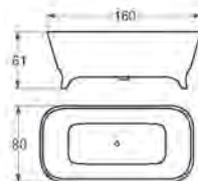

ENAMEL

A robust material that has been associated with baths for decades. Our enamel baths are made of pressed steel that is covered and protected by the enamel.

THE HEATED TOWEL RAIL IS READY TO BE CONNECTED TO YOUR CENTRAL HEATING SYSTEM OR FOR ELECTRICAL CONNECTION. YOU HAVE THREE OPTIONS:

1. Electrical connection. Choose an electrical element that is adjustable 30-60° C with a switch. The electrical element is connected externally to any of the bottom corners. When fitting, fill your heated towel rail with water/glycol (90/10) solution.

2. Central heating. Connection to your central heating system (sealed systems only, not tap water system).

3. Dual fuel. Uses both the above alternatives, which is an advantage in the summer when the central heating system is often switched off.

STANDARD COLOURS

A white bathroom is timeless. Grey and black exude understated elegance. Blonde oak is classic. White ash gives a light, Scandinavian feel. Brown ash enhances the wood's natural grain pattern.

White

White bathroom furniture always looks right. A white bathroom never goes out of style, and you can replace individual details and textiles when you feel like a change.

Slate grey

Slate grey is a beautiful dark colour that harmonises beautifully with other greys in your bathroom. It's gentler than black, but just as exciting.

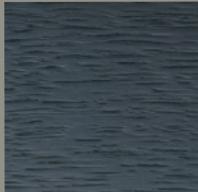

SELECTED COLOURS

But if you're looking for something different to liven up your bathroom, consider adding colour. We've chosen a selection of up-to-date minute colours. They're available in our Forma, DK and Epos collections. For more information, see the Buyer's Guide.

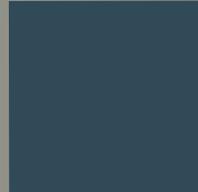

Blonde oak

Light and natural, influenced by Scandinavian design tradition. White-stained blonde oak gives your bathroom an spacious feeling.

Black oak

Black oak creates a sophisticated, bold and stylish look with a touch of luxury. Ideal if you want to add dark accents to your bathroom.

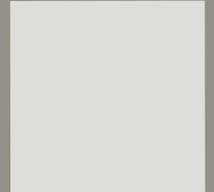

Marine

A deep blue inspired by open waters. It breathes calm and stillness and goes well with grey tones and natural materials such as stone and wood details.

Ash grey

Similar to slate grey but a few shades darker. Has attitude but is slightly gentler than coal black, more towards matt black. A slightly softer black.

Limestone

Many people are transitioning from white to light grey. A very light grey is a slightly softer alternative to pure white. It feels a little calmer and warmer.

White ash

This colour is created with white pigment. The wood is carefully stained to provide a natural effect and a light Scandinavian feel. This finish really highlights the craftsmanship behind the product.

Brown ash

Bring out the natural beauty of the wood. A rich, deep colour with a hint of grey that brings chocolate and almonds to mind. It showcases the ash's natural grain pattern and is warm, exclusive and refined.

Sand

While light grey is wonderful, a warmer beige creates a cosier and softer feel. It goes perfectly with both white and darker browns.

Salvie

A dark, warm green. This colour brings nature into your bathroom. It complements the other soft colours in the palette.

MATERIALS

All our materials are carefully selected for their quality, function and sustainability. Here you can read a brief description of the different materials. For further details, visit [svedbergs.com](https://www.svedbergs.com)

Frames

We always use moisture resistant material. To seal our wooden panels against moisture, we use paints and coatings that absorb into the material.

Mirrors

Our mirrors are highly durable and always 100% copper-free. A safety film on the mirrors prevents shattering in the event of an accident.

Real wood veneers

All our front panels are given two clear matt coatings to create an attractive, moisture-resistant finish.

DuraDry

Our own coating method, DuraDry, ensures optimal moisture resistance and long product life for our wooden furniture.

PVD

The technique makes the surface more than ten times harder than a lacquered product, which provides durability and scratch resistance.

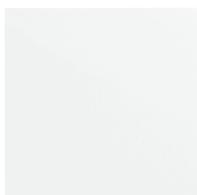

Sheet metal

We use galvanised sheet metal, which we powder coat to make it resistant to rust, strikes and scratching. In this process, we use environmentally friendly Bonderite NT and solvent-free coatings.

EnduraDry

The coating we have developed for our sheet metal components is based on nanotechnology. It provides a protective layer that is exceptionally dense and durable, which makes it possible to rinse off the products with water without them being damaged.

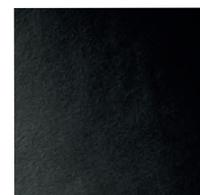

Porcelain

We add a glaze to the surface to protect the porcelain from scratches and to make it easier to clean.

Silestone

Silestone consist primarily of quartz which is a hard mineral. The material is resistant to scratches and wear. It is also easily washable and stain-resistant.

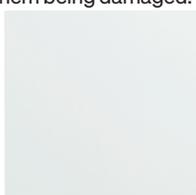

Dekton

A material that withstands high temperatures. It is also resistant to scratching, UV degradation and fading. The material is easy to clean.

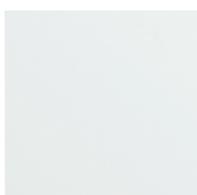

Acrylic

Acrylic is durable and easy to clean. It is also highly shapeable.

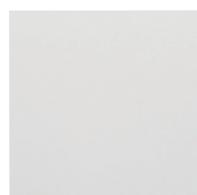

Lucite

Stronger than acrylic, with a luxurious surface finish that feels warm and soft to the touch and retains colour over time.

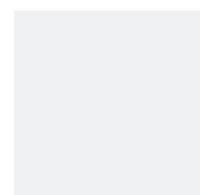

Mineral composite

Artificial marble that that is highly shapeable and very hardwearing. The material keeps the water warm longer.

Solid surface

A malleable, low-maintenance material. It is exceptionally durable and hygienic.

Enamel

A robust material that has been associated with baths for decades. Our enamel baths are made of pressed steel that is covered and protected by the enamel.

Reservations: We are continuously developing our products. For this reason, we at Svedbergs reserve the right to make changes to the design, appearance and prices of products. We also reserve the right to sell out. Wood is a natural material. Because of this, variations in colour and texture between individual doors/front panels and deliveries may occur. For technical printing reasons, the colours of wood and other surfaces in the Bathroom Book may differ from the actual colours. Colour swatches can be requested from Svedbergs dealers.

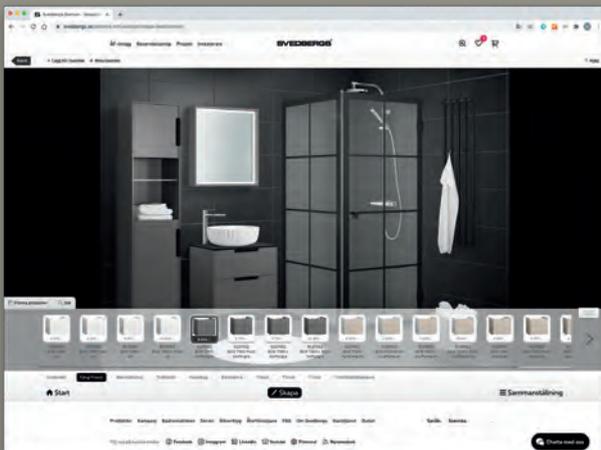

WE ACCEPT NO RESPONSIBILITY FOR DISCREPANCIES AND PRINTING ERRORS.

CREATE YOUR BATHROOM DIGITALLY

At [svedbergs.com](https://www.svedbergs.com) you can see your new bathroom take shape exactly as you want it. Try out different combinations until you're satisfied. There are two methods for doing this. Choose the one that suits you best.

DRAW IN 3D

Use our Blueprint drawing tool to easily plan and draw your new bathroom. Specify your bathroom's dimensions, choose your wall and floor tiles and position your bathroom furniture. After you've finished, you'll get a full list of the products and inspiring pictures of your dream bathroom. Our drawing tool can only be used on a computer and doesn't work on mobile devices.

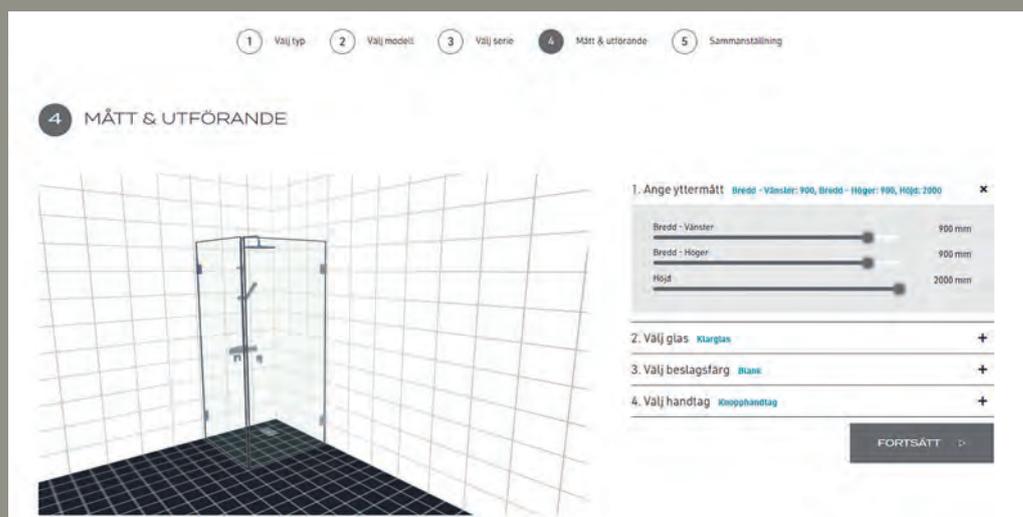

CREATE YOUR BATHROOM

With a few simple clicks, you can quickly get a rough picture of how your new bathroom will look like. You can choose between two bathroom types, one larger and one slightly smaller. Our self-build service allows you to choose between different furniture collections, sizes and colours. Try out different combinations until you're satisfied.

STUDIO SHOWER

On our website you can customize your shower in five simple steps. If you need any assistance, you can chat with our staff during certain times. At other times you can always send us an email.

Many of our showers can be made to measure. This is great news for all bathrooms with an irregular shape, sloping walls or a high ceiling. On our website you'll find our super smart product studio where you can design and customize your shower or shower screen to suit your exact requirements. Welcome to svedbergs.com, and see your new shower become reality.
