

BATHROOM BOOK 2020

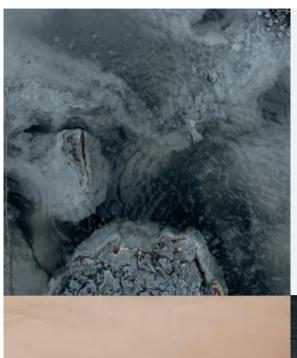

A room with space for your thoughts and dreams. A place for reflection and relaxation, where you can be yourself. A room that's just the way you want it, shaped to your needs, your life and your home. An expression of your unique style. A room lovingly planned with furniture and fittings made from carefully selected materials and built to last.

We are Scandinavia's leading supplier of bathroom furniture and fittings. After producing bathrooms in Dalstorp since 1962, we've learned that no two dream bathrooms are the same. You'll not choose the same style or love the same contents as your neighbour. And people's needs vary too. That's why our products come in different widths and heights. With shapes you'll love and functions that make life easier.

Plenty of choice, endless variety and combinations. That's freedom. Having a room for those quiet moments alone where you can just be yourself. That's freedom.

Let us guide you

Once you've made the decision to restyle your bathroom, many choices lie ahead. We'll help make your decisions easy and guide you through the process. Our Buyer's Guide makes it simple to find what you need. It contains information about our different collections, measurements, materials, colours and accessories. It also shows you which products can be combined and varied. See more on page 185.

Read more about our materials

Our material guide tells you more about our different materials' characteristics. Behind the surface of each material are fascinating facts that are important from both an aesthetic and functional perspective. Read more on page: 216

Skuru - clean and minimalist

Skuru has a pared back, minimalist design reminiscent of stark Nordic mountains that looks great in any bathroom. It provides attractive contrast in a classic interior, or reinforces a more modern style.

SKURU Mirror cabinets 80 slate gray with LED lighting, electrical socket, 2 shelves and washbasin lighting. INDUSTRIA Independent Washbasin mixer black matt. FROSS Independent Washbasin Ø40 black matt. WORK TOP Sirius 80 centre. FORMA Vanity unit 80x45 slate gray with 2 drawers, BOX ONE, push open and easy Clean. AMOR 10x140 black matt.

2. HAMRA Mirror cabinets 80 white with LED lighting. FROSS Independent Washbasin Ø40 white matt. STIL Vanity unit Frame 80x45 white with 2 drawers, BOX ONE and easy Clean. PIPE Independent Washbasin mixer white mat. WORK TOP Keon 80 centre. KNOB round white matt SIGYN Heated towel rail Sigyn 11x120 white mat. ERICA Electric element white matt 300W.

Flexibility is our speciality

With emphasis on flexibility, we have designed a new collection of mirror cabinets that make it easy to personalise your bathroom. Our bathroom cabinets have a modern design and come in many versions. Choose between various widths and styles. Do you prefer minimalist or classic? Perhaps you love extra functions that make a difference, like dimmable lighting? There are virtually no limits – just plenty of possibilities and smart functions.

Hamra looks great with a variety of styles

A mirror cabinet that combines a modern look with rustic craftsmanship and looks perfect with many different styles. Shaker, French or classic? What style do you like? Hamra comes with a magnet for holding small items and advanced lighting that allows you to adjust the colour temperature and brightness, just like on our Skuru mirror cabinet.

Skuru and Hamra can give brighter light

There is a knob for stepless adjustment of colour temperature and brightness. Turn it up when you're cleaning and down when you visit the bathroom at night.

Industria

The industrial look is raw but very beautiful. The Industria mixer is similar to our Pipe mixer but stands out more. This is partly because of its distinctive ribbed design that enhances the industrial feel. Page 111.

Bold

When you want a mixer that's part of the decor and not just a discreet detail. Bold creates a powerful, almost oversized look with an industrial feel. Page 111.

Halde

New products with minimalist design. Available in a low or high version. Choose between black matt and chrome. With energy-saving cold start function. Page 111.

Fross Countertop mixer with a design that lifts the look of your bathroom. Available in a round or a rectangular design in matt black and matt white. Page 108.

Lule

Design and function in one bath. Round and ergonomic. Made of Lucite, which is stronger than acrylic and has a more luxurious surface. Page 154.

Skapa and Sand

Skapa and Sand are available in new sizes. Skapa is available in 40 x 35, 60 x 35 and 80 x 35 cm and Sand is available in 50×35 cm. Page 108.

Lojsta

Smart, functional solutions for any bathroom. The Lojsta shower set with a thermostatic mixer and diverter knob is a perfect example. It has a height-adjustable shower bar and a hand shower and shower head in a matching colour. Choose between black and chrome. Page 113.

Generations of craftmanship

Holger Svedberg, who founded our company in 1920, would feel pleasantly at home at Svedbergs today. Of course, the way we manufacture our bathroom furniture has inevitably changed. But the soul, quality and care for details are the same as ever.

Crafted by hand

Much of the work is done by hand at our factory in Dalstorp, just as it was almost a century ago. And always with the same care and precision. Many of the visitors at our factory are surprised that we still manufacture and assemble all our bathroom furniture there. We do this for a reason: to ensure they have a long, problem-free lifespan.

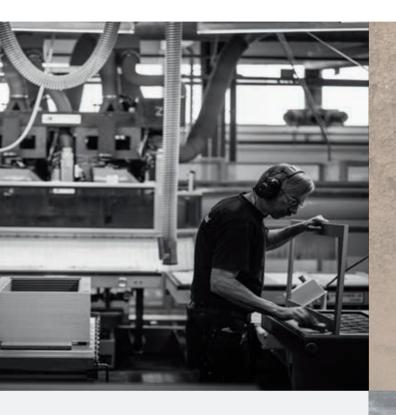

The care that makes the difference

As an example of our care and precision, we give all our wooden furniture three base coats and one top coat. We dry each coat with UV light before applying the next coat. To seal our panels against moisture, we use paints and coatings that absorb into the material. We take the same care over our sheet metal cabinets. They are powder coated to protect them against rust, impact and scratching.

Our unique varnishing method, DuraDry

Choose furniture for your bathroom that stands up to repeated daily use. Our wooden furniture is coated in multiple stages for maximum durability. Our unique varnishing method, 3+2, DuraDry, ensures optimal moisture resistance and product lifespan. We apply three base coats and dry each one individually with UV light. This is followed by two top coats, which are air dried to make the furniture really durable. We use acid curing paints and coatings that absorb into the material, sealing the wood against moisture to maximise the furniture's lifespan.

Only genuine veneers

All our unpainted front panels have real wood veneers. The frames are made of moisture-resistant chipboard. We know they're tough because we've tested them for three days in 20 °C water, one day in 12 °C cold and three days in 70 °C heat. And all our bathroom cabinets have fully extendible drawers with real ball bearing runners. Read more in our material guide on page 216.

The perfect metal sheet

We manufacture and assemble all our sheet metal parts in-house. We use galvanised sheet metal for our cabinets and drawers, cold-rolled sheet metal for our lighting and aluminium for our showers. But the secret to a perfect sheet metal detail lies in the pretreatment and varnishing processes. Everything is done in a closed process at our own varnishing facility, using environmentally friendly methods and without solvents. Read more in our material guide on page 216.

For a better environment

Because we make our products in our own factory in Sweden, we have control of our environmental impact. We use mandatory labels such as REACH, RoHS and WEEE. Moreover, we are a member of organisations including BASTA, REPA, El-Kretsen and Safe Water Installation.

Everything for your bathroom, just as you want it

We have everything you need for your bathroom,, from bathroom furniture, washbasins and mixers to showers, heated towel rails and WCs. Everything can be matched together including colours, details and materials. All items have the same high quality and are all delivered together.

Easily adaptable

When we develop and design our products, we think both big and small. This means our products can be adapted to suit your requirements. It makes no difference whether your bathroom is big or small. You can even have your bathroom furniture in any colour you want (read more on the next page). And if you want to add that little extra, you can combine SiD with Forma, DK or Stil. Read more on page 16.

Important details

We know it's the details that define the overall look and feel of a bathroom. Details such as handles, knobs, work tops and mixers. As you browse through the Bathroom Book, you'll discover all the options we offer. And when it comes to important bathroom lighting, we've chosen high quality for you by pre-fitting our products with safe, energy-saving lighting systems.

Up to 10 year guarantee

Our guarantee coincides with our philosophy of quality materials, and care for details. Most of our products are guaranteed for up to 10 years. This gives our customers even greater peace of mind. Read more about our guarantees on **svedbergs.com**

Our customer service

If you have any questions or queries, don't hesitate to contact us

Create your bathroom today

On our website you can quickly visualise your new bathroom with a few simple clicks. Click svedbergs.com and get started. When you're satisfied with your bathroom, you can save it, print it or send it to one of our dealers. Our dealers can show you many of the products in-store, give you ideas and sometimes help you install them.

Create your bathroom on Svedbergs.com

- Shape your bathroom in Svedbergs digital showroom

- Create and measure your shower in the product studio

Six trendy bathroom colours

A white bathroom is always beautiful, classic and timeless. But if you want to try something different and liven up your bathroom, now is your chance. We've chosen six up-to-the-minute colours. These colours are now also available in the Forma, DK and Stil collections. Read more under each collection.

Our furniture collections

Five different styles make it fun and simple to find a solution that suits your unique taste and needs. Think about it: what's your style?

Forma

The Forma collection has been a success ever since it was introduced. This is partly due to its design, and partly because of the endless possibilities it offers. A clean, simple design. Scandinavian style that remains contemporary and elegant year after year.

Page 20

DK

The DK furniture collection places emphasis on aesthetics and function. The collection has a design that mixes wood elements with white to heighten the Nordic feeling of light and spaciousness.

Page 40

Stil

Straight, clean lines with a classic design. Choose between a frame front or a bevelled front. A timeless collection that creates a harmonious bathroom you'll love to spend time in. And as with all our bathroom furniture, the choice is vast.

Page 58

Skapa

Specially conceived and designed for smaller bathrooms. With no compromises and attention to details, quality and function.

Page 70

Intro

Metal bathroom furniture that stands up to tough wear. Practical, elegant and solid. Ideal for all bathrooms, even small ones.

Page 78

Svedbergs individual Design

There's a little more of everything. That just about sums up SiD, Svedbergs individual Design. Furniture and details for people who want outstanding design and function with even more options. You can combine the different components to express your own unique style. The work tops can be customised to your chosen length. It's a simple, no-nonsense concept.

Your own unique bathroom

SiD is a 100% unique bathroom solution. The dimensions can be fully customised to your requirements. The principle is simple. You create your own combination of furniture from the Forma, DK and Stil collections. This gives you a wider choice of product sizes and accessories to create your own personal style. SiD products are also available in Deep Blue, Sage, Cortado, Sand, Ash and Chalk.

Customised work tops

The three furniture collections can be combined with customised work tops in lengths of up to 300 cm. The result is a more exclusive look. The work tops are available in various materials including Silestone and Dekton (hard-wearing natural materials).

Read more about SiD in combination with: Forma on page 36 DK on page 54 Stil on page 66

The best drawers we've ever made

When we developed our drawer concept, we set out to achieve a stable and functional design. And we wanted users to have the option of adding extras to enhance the experience still further. The result can be seen in Forma, Stil and DK.

BOX ONE

Box One is included in Forma and Stil at no extra charge. The drawer has a moulded plastic insert that is extremely durable and easy to maintain.

BOX ONE+

To enhance the experience, for an extra charge you can add Box One+, which is available for Forma and Stil. Then you'll get black oak inserts and two smaller removable wooden boxes which you can put wherever you want inside the drawers. An attractive and practical solution.

BOX TWO

If you choose DK, Box Two is included at no extra charge. It includes an attractive oak insert and two smaller removable wooden boxes. You can put the boxes wherever you want inside the drawers. The whole design breathes style and function.

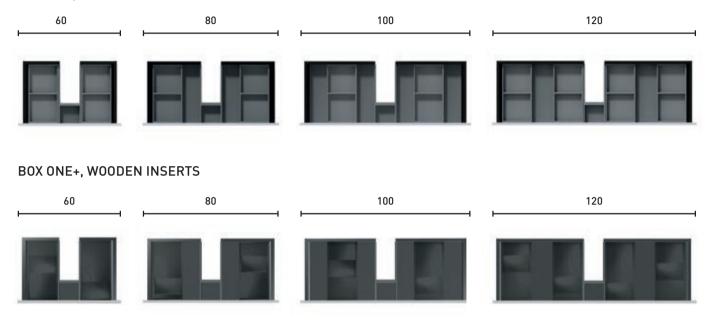

BOX TWO+

To enhance the look still further, you can upgrade to BoxTwo+ for an extra charge. Then you'll get two wooden lids for the small removable wooden boxes and wooden side panels for the drawers. The wooden side panels create the impression that the whole drawer is made of wood. The drawer inserts are the same as for Box Two.

Forma and Stil

Forma and Stil are equipped with Box One as standard. If you choose to add Box One+ for an extra charge, you get black oak inserts and two removable, smaller wooden boxes that fit the drawers.

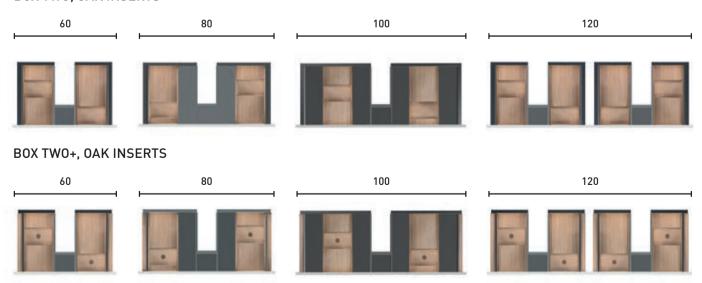

BOX ONE, PLASTIC INSERTS

DK

The Box Two drawer concept is included as standard in the DK collection. For an extra charge you can upgrade to Box Two+, which has oak lids for the smaller boxes and wooden side panels for the drawers.

BOX TWO, OAK INSERTS

Endless combinations

Forma is a versatile furniture collection that can be combined almost any way you want. And it fits into any bathroom, however big or small. Choose your preferred colour, washbasin, mixer and handles to create a unique, personalised bathroom.

Bathroom tip

The bathroom is the smallest room in many homes, so good planning is essential. What would you add if you had some extra space – more storage, a bath or perhaps a washing machine? See all the available options at svedbergs.com.

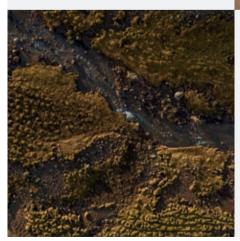

Facts in the buyer's guide

Details of all Forma products are in the Buyer's Guide, including dimensions, colours, prices and much more.

SELECTED COLOURS

Forma is also available in the following colours:

DK

Danish design by Morten Voss and Stinne Knudsen. Available with or without a leg frame. Includes Box Two drawer concept and EasyClean water trap. Can be combined with SiD (customised work tops).

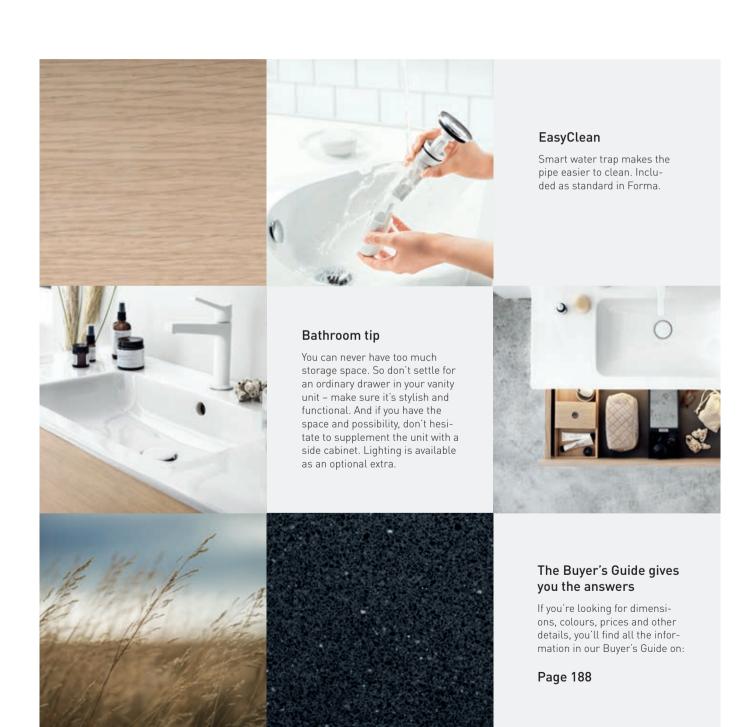

DK Vanity unit 100x45 white with 2 drawers, BOX TWO and Easy Clean. HANDLE No 5 128 cc white WORK TOP Aura 100 centre. FROSS Independent Washbasin 55x35 white matt. FROSS Basin shelf white matt. PIPE Independent Washbasin mixer white mat. DK Mirror 100 white LED. DK Tall cabinet 170x40 white with 2 doors. VIST Shower mixer white mat 150 cc with thermostatic mixer, overhead shower and hand shower. SKOGA straight Shower screen 87 white mat profile and clear glass.. Clay, extra charge, see page 188..

Step closer to Nordic nature

Morten Voss and Stinne Knudsen are the designers of the DK furniture collection. They have drawn inspiration from Scandinavian design tradition, focusing on both practical and aesthetic aspects. This collection has a clean, spacious style perfect for many bathrooms.

DK Vanity unit 100x45 White/Blonde oak with 2 drawers, BOX TWO, Push open and Easy Clean. DK Washbasin Svale 100x45 white. SWEET Washbasin mixer white mat. DK Leg frame 100 white mat. SELFIE Mirror 100 with LED lighting. ZAGA Heated towel rail 34x120 white matt. ERICA Electric element white matt 300W. SKOGA Corner shower 90x90 white matt profile and clear glass. VIST Shower mixer white matt 160 cc with thermostatic mixer, overhead shower and hand shower. SAVON Independent Solid surface bathtub, Waste Easy Clean white.

Svale washbasin

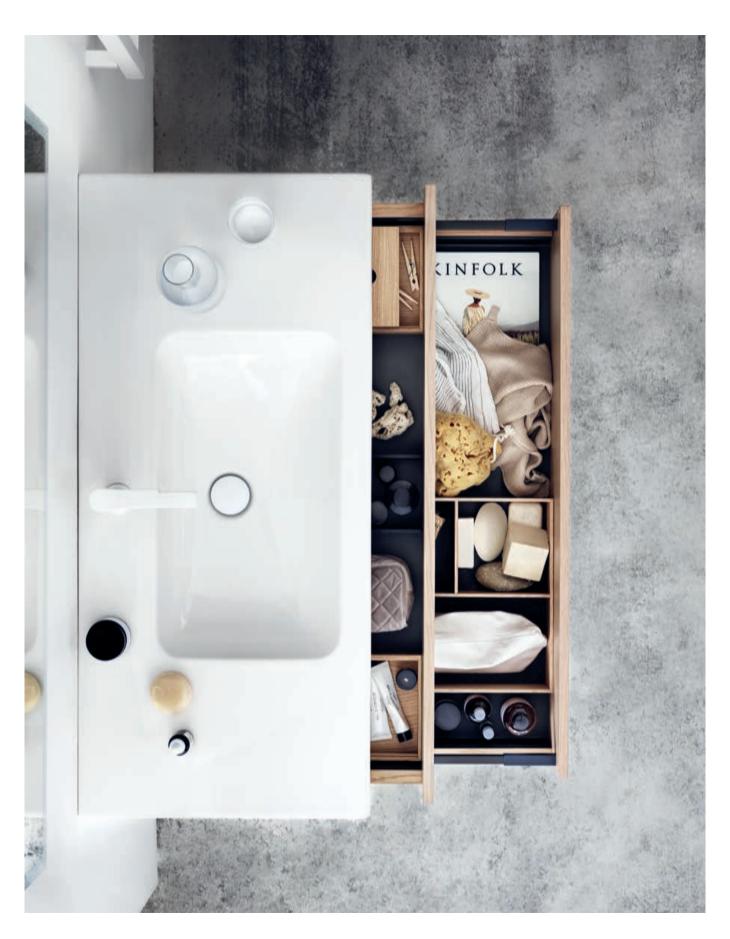

Thin and elegant but also functional and durable. Our new Svale washbasin gives you the best of both. Solid surface is an extremely malleable and low-maintenance material. If you accidentally drop something and crack the surface, it can be repaired to new condition.

Light up your bathroom with new DK Nord

Morten Voss and Stinne Knudsen are the designers of DK Nord, a collection inspired by Nordic design tradition and Nordic nature. The combination of wood and white creates a light, spacious feel with a sense of both peace and movement. Just like Nordic nature.

HANDLES

It's only a detail, but it's an important one. The handles on bathroom furniture enhance the style and add character. We give you plenty of handles to choose from. See them all on page 92.

Colours

SELECTED COLOURS

DK is also available in the following colours:

Stil

Classic and timeless. Suitable for bathrooms of all sizes. Many smart functions. Includes Box One drawer concept and EasyClean water trap. Can be combined with SiD (customised work tops).

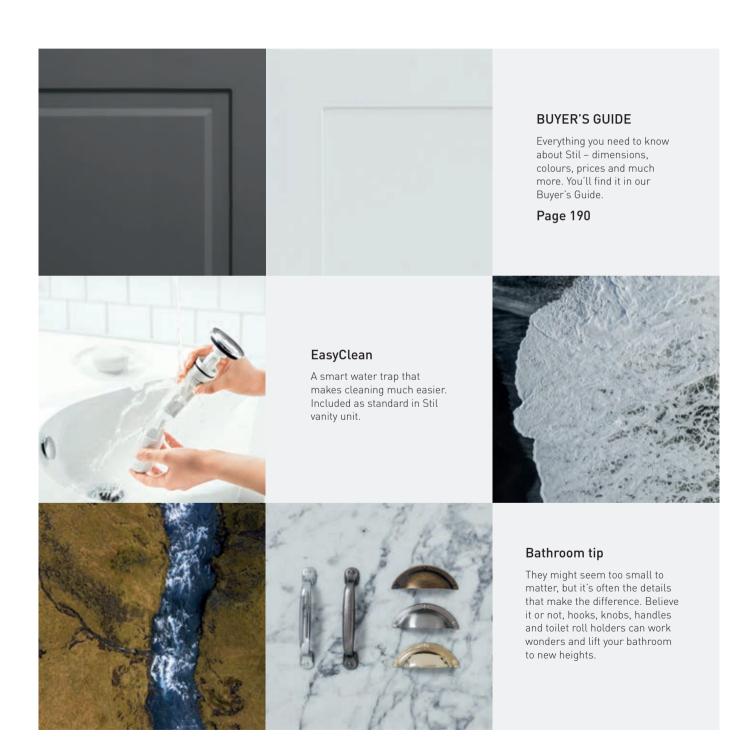

STIL Vanity unit Frame 80x45 blonde oak with 2 drawers, BOX ONE and easy Clean. FROSS Independent Washbasin Ø40 white matt. DK Work top Aura 80 centre. PIPE independent mixer gold DK Mirror 80 blonde oak with LED lighting and concealed lighting. SCARLETT cast marble bath white. Handle No 5, 256 cc brass.

Classic style with plenty of choice

Straight, clean lines with a classic design. Choose between a frame front or a bevelled front. A timeless collection for creating a harmonious bathroom you'll love to spend time in. And as with all our bathroom furniture, the choice is vast.

STIL Vanity unit 60x45 white frame with 2 drawers, BOX ONE and Easy Clean. Cup handle bronze. STIL Washbasin 60x45 white. SVEA washbasin mixer bronze. Waste Easy Clean bronze. SKOGA round 95x80 aluminium matt profile and clear glass. ROUND shower set with thermostatic mixer 160 cc, overhead shower and hand shower chrome. MIRROR CABINET Holger white.

STIL Vanity unit Frame 100x45 white with 2 drawers, BOX ONE and easy Clean. DEEP Washbasin 100x45 white. SWEET washbasin mixer chrome. HAMRA Mirror cabinets 100 white with LED lighting. THOR Heated towel rail 50z140 chrome. ERICA Electric element 300W chrome KNOB steel. Limestone, extra charge, see page 191..

Smart drawer system

When you choose Stil, our Box One drawer system is included as standard. An anti-slip material in the bottom of the drawers keep the contents from sliding around. As an option, you can upgrade to Box One+ which has black oak inserts and two removable wooden boxes.

Bathroom tip

A bathroom can sometimes feel a bit cold and empty, and may have an echo. The answer is to use fabrics to create a cosy, welcoming feel. Mats on the floor and pictures on the walls also reduce the echo effect and soften all noises.

STIL Vanity unit Frame 100x45 slate gray with 2 drawers, BOX ONE and easy Clean. Cup handle bronze. FLOD porcelain washbasin. SVEA washbasin mixer bronze. Round mirror 60 black matt. WALL CABINET Frame 70x40 slate gray. OVAL 170 cast marble bath. Waste Easy Clean bronze.

A bathroom collection that can take tough wear

It's clean-lined, elegant and hardwearing. Intro is a collection of metal bathroom furniture that can take tough wear. The vanity units are moisture-resistant and easy to keep clean.

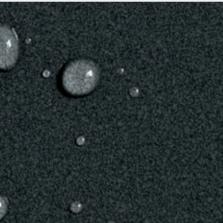

Bathroom tip

There's no need to hide everything from view in your bathroom. You can keep some things on display for a decorative effect. A pile of attractive towels in matching colours, scented candles and plants in pretty pots can create a lovely atmosphere.

Carefully selected materials

Intro is made of galvanised sheet metal, a material originally designed for the automotive industry. Its zinciron alloy coating provides effective rust protection, and also improves adhesion to provide an excellent finish.

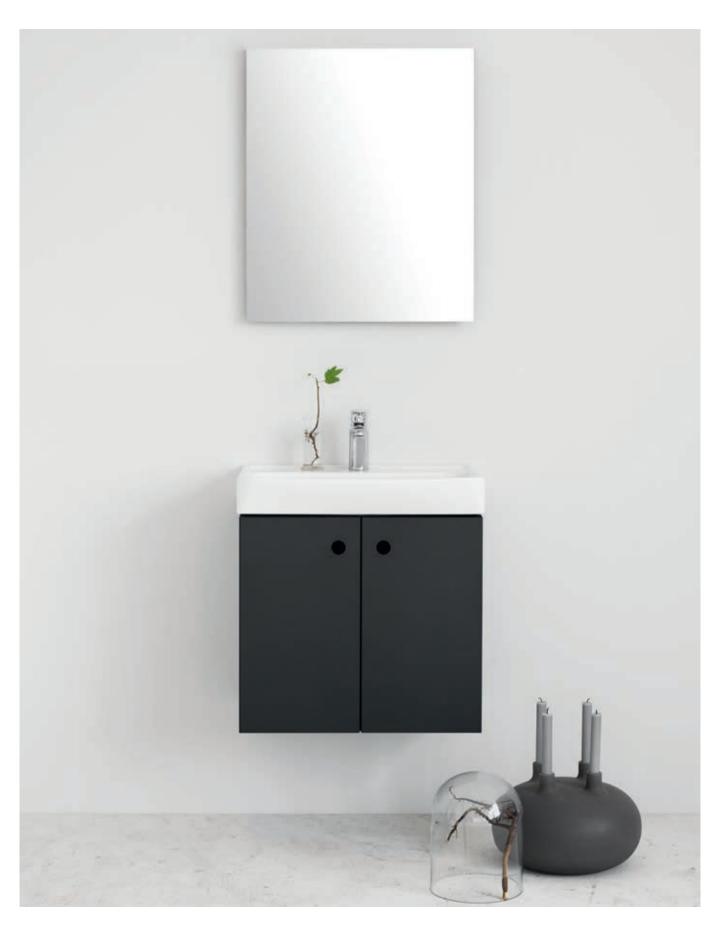

Intro handle

The Intro handle consists of a punched hole. Practical, hardwearing and easy to clean.

A laundry room in your bathroom

If you have some space to spare in your bathroom, you can create your own laundry room. We have developed smart solutions that fit into most bathrooms. It's simply a question of making optimum use of the space available.

Bathroom tip

With a little planning, excellent laundry and drying facilities can be created in almost any bathroom. Besides the planning and the white goods, a worktop, an airer and practical storage space are things to prioritise for best results.

Extras

Don't forget to buy end panels, corner mountings and bases for our cabinets and shelves. See the Buyer's Guide:

Page 192

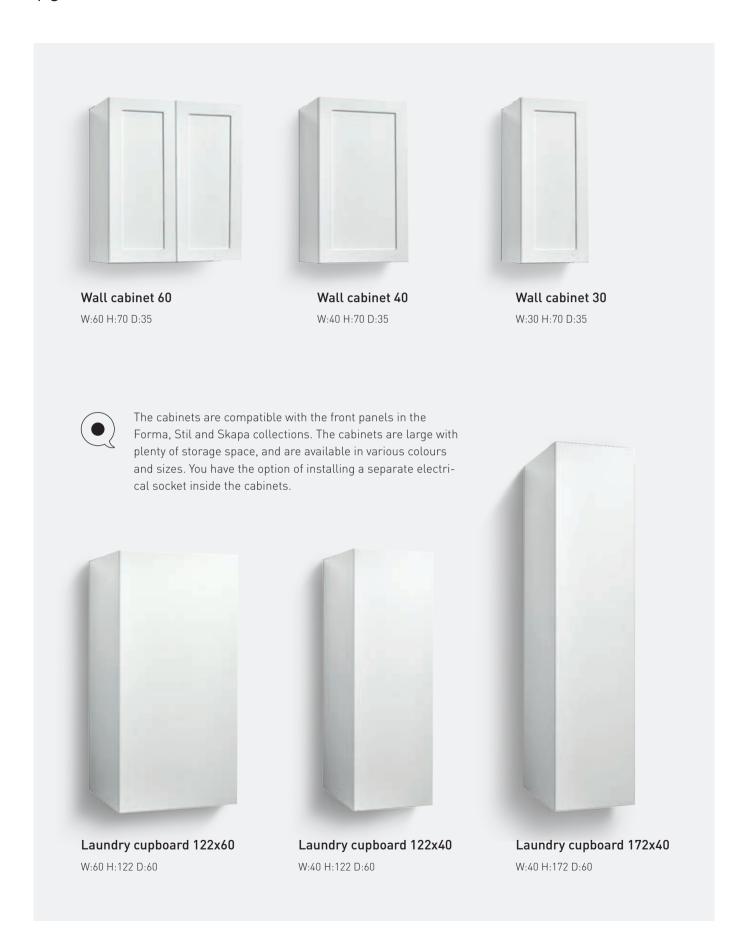

Moisture-resistant

The frames in our cabinets are made of moisture-resistant chipboard. We know they're tough because we've tested them for three days in 20 °C water, one day in 12 °C cold and three days in 70 °C heat.

SEE THE BUYER'S GUIDE FOR FULL INFORMATION

Here is an overview of our washing and drying solutions for laundry. You can find complete information in the Buyer's Guide.

Choose the perfect upper unit

Good design is important on the inside and the outside. Our new mirror cabinets have the best of both worlds. They're functional as well as stylish. They go well with many styles and add a more personal touch to your bathroom. Combine different models to create your own unique look. Choose between various widths and models. There are many options. Lighting is important, so we've given it extra focus. You can adjust the lighting according to the situation. Create your perfect bathroom lighting.

SKURU Mirror cabinets 80 slate gray with LED lighting, electrical socket, 2 shelves and washbasin lighting. INDUSTRIA Independent Washbasin mixer black matt. FROSS Independent Washbasin Ø40 black matt. WORK TOP Sirius 80 centre. FORMA Vanity unit 80x45 slate gray with 2 drawers, BOX ONE, push open and easy Clean. AMOR 10x140 black matt.

Skuru Mirror cabinet. 40, 50, 60, 80 and 100 cm.

Hamra Mirror cabinets. 40, 50, 60, 80 and 100 cm.

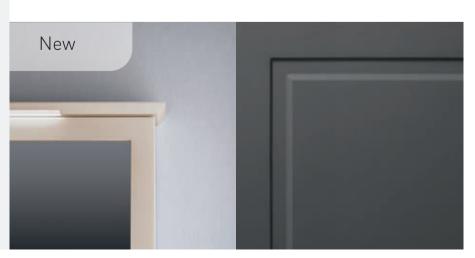

As an optional extra, you can add a colour from our colour collection.

Hamra

A mirror cabinet that combines a modern look with rustic craftsmanship and looks perfect with many different styles. Hamra goes especially well with Svedbergs's distinctive frame fronts and bevelled fronts. As an added bonus, it includes a clever magnet for holding metal objects such as nail scissors or tweezers. Hamra is available in 40, 50, 60, 80 and 100 cm.

Skuru

Our new premium cabinet with a Scandi design has advanced lighting that can be adjusted to suit your needs. Turn it up when you're cleaning and turn it down when you visit the bathroom at night or to create mood lighting for your bath. Skuru is available in 40, 50, 60, 80 and 100 cm.

Adapt your lighting to the situation

It's great to be able to adapt your lighting to the situation and the time of day. Do you want softer or brighter lighting? The Selfie mirror has built-in dimmable lighting around the edge. The mirror is available in a round or rectangular version.

ERICA Electric element 300W black

Skoga

Waterfalls are one of nature's most exciting inventions. Seeing a waterway suddenly plunge down vertically is awe-inspiring. We've chosen the names of large and small waterfalls for products that enhance your bathroom experience in various ways. The waterfalls in your bathroom echo those in nature. Sometimes small and relaxing. Sometimes powerful and energising. Skoga, one of Iceland's mightiest waterfalls, is first out. The Skoga collection enhances and frames your bathroom design. Like flowers around a bubbling brook or the rock face behind a waterfall.

Design that enhances

With their contemporary design, our Skoga products create a clean, essential style and take your experience to a new level. That's how we want it. It's in our nature.

See all dimensions in the buyer's quide

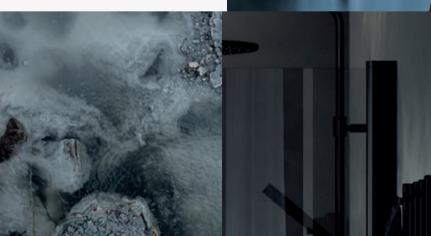

Skoga comes in many versions. For instance, certain models are available with a height of 225 cm. Find all the information you need in our Buyer's Guide.

Page 200

Customise Skoga

Does your bathroom have an unusual shape or a low ceiling? You can create your new shower at svedbergs. com, where you can choose your perfect model, profile colours and glass type. Try out different solutions to design your ideal shower.

USE OUR BUYER'S GUIDE

What type of glass do you want, what should the profiles look like, what size fits your bathroom and what does the shower cost? You'll find the answers to these questions and many more in the Buyer's Guide:

Page 205

SKOGA FOLDING SCREEN SHOWER

- 1. First choose a model. The folding shower screen (pictures 1 and 2) can be combined with a fixed shower screen for installation in a corner (picture 3) or an alcove (picture 4). You can also combine two folding shower screens (pictures 5 and 6).
- 2. All models are available in clear or frosted glass (some models are also available in semi-frosted).
- 3. Choose the colour of your folding screens: matt aluminium/ matt chrome, shiny aluminium/ chrome or black matt/black matt.
 4. Choose a size:
 70, 80, 90 or 100 cm.

180°/180° Rista

A characteristic feature of 180° is the large glass panels that create an airy and exclusive look. A collection of showers that combines aesthetic style with practical function. The 180° Rista is an open flirtation with the industrial style that's popular right now.. Browse until you find your favourite model.

Bathroom tip

Choose a shower wall or cubicle in a material that is easy to clean and care for. It is often enough to use lukewarm water and a rubber squeegee or window spray and a soft cloth. Avoid using abrasive sponges or abrasive cleaners.

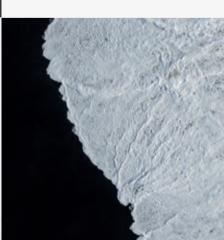

Made to measure

If you can't find a model to fit your bathroom, you can have your 180° customised to your exact requirements. Perfect if you have a sloping ceiling, surface-mounted pipes or want your shower to reach all the way to the ceiling.

Rista

The 180° Rista gives your bathroom a slightly raw industrial feel. Black is timeless.

Details are important. Every little part matters. So choose each of your details with care. Use them to perfect your bathroom by underlining the overall look or creating exciting contrast.

There's a reason why black is a fashion classic. Black exudes timelessness. Why associate black with doom and gloom? We think high quality and clean design. A natural bathroom classic.

RITUAL

Our Ritual shower cubicle is available in several versions. All versions have a space-saving design, are fitted with safety glass and offer a wonderful shower experience. What's more, Ritual is available in two additional versions (see next page). Whichever one you choose, you'll have a ritual to cherish.

Benefits of Ritual

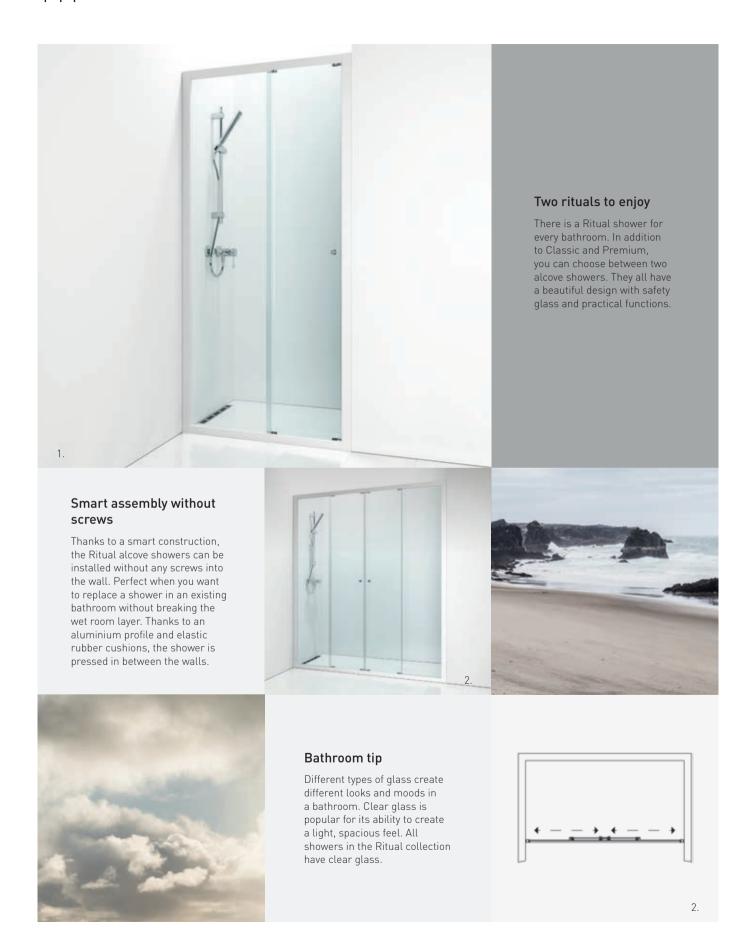

10 benefits included when you choose Classic or Premium:

- Two aluminium profiles for a stable and secure sliding door.
- Door slides quietly due to double tracks with ball bearings and spring system.
- A sliding door saves floor space.
- Eight wheels on the door assembly make it stable and easy to open.
- Available with clear glass or frosted back walls.
- Spring-suspended for easy cleaning.
- Integrated handles in the profiles.
- Stable cast marble shower tray (with concealed drain).
- Entrance width: 47 cm.
- Snap system for easy assembly.

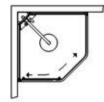

- **1.** RITUAL Shower enclosure Classic 91x91 white clear glass/frosted glass.
- 2. RITUAL Shower enclosure Premium 91x91 white mat profile and clear glass. 3. RELAX Shower seat.

COLOR PROFILE

GLASS

The Ritual collection is available in clear glass (with frosted glass on back walls of the shower cubicles).

CLEAR GLASS

EXTRAS

RELAX SEAT

A comfortable and practical wall-mounted seat is available as an optional extra. It easily folds down when not in use. This seat can also be used with the Ritual Premium shower cubicle.

SHELF

Smart storage solution for the shower with three removable shelves. Mounted on the profile or wall.

ALL INFORMATION CAN BE FOUND IN THE BUYER'S GUIDE

Our Buyer's Guide contains complete, easily overviewable information about all the showers in the Ritual series, to help you make your choice.

Page 209

Baths

Cast marble, enamel, acrylic, Lucite or Solid Surface – what does your ideal bath look like?

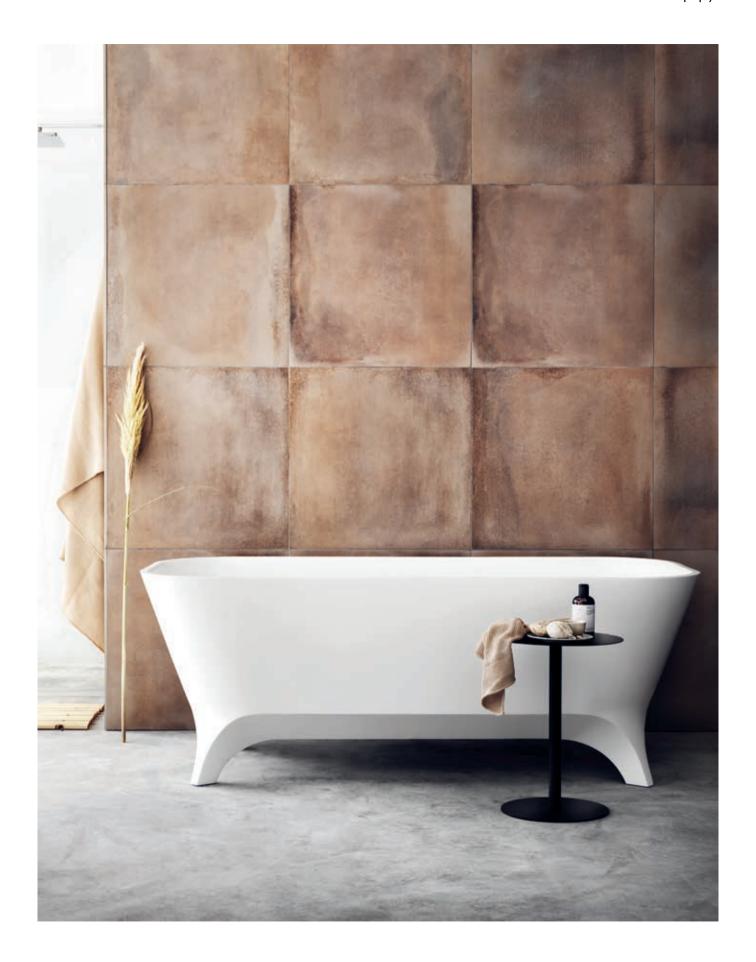

DK Vanity unit 60x45 white with 2 drawers, BOX TWO and Easy Clean. DK Handle CC 192 chrome. DK Washbasin Falster 60x45 white. Pipe washbasin mixer chrome. Skuru Mirror cabinets 60 white with LED lighting. DK Tall cabinet 170x40 white with 2 doors. Towel hanger 1 hook 001 chrome Lule 170x83 white matt. Smart bath mixer Amor Electric heated towel rail Amor 10x140 polished.

Solid Surface

Solid Surface baths can be formed into virtually any shape as the material is so malleable. What's more, solid surface is very low-maintenance. And if you drop something and crack the surface, your tub can be repaired to new condition.

Cast marble

The foremost characteristic of cast marble is that it makes a very stable bath. But there are other benefits too. For instance, it keeps the bath water warm for a long time. Ideal if you love long relaxing baths. Choose between different shapes and sizes.

Reyk

Reyk is crafted out of cast marble, a durable natural material made from crystallised rock minerals. It brings to mind natural hot springs. Because cast marble is an excellent heat insulator, it gives you a more pleasurable bath while sparing the environment.

Scarlett

A practical, comfortable bath with a classic design. The head end is raised, both for aesthetic effect and to provide comfortable support for the back. And because it's free-standing, the bath can be placed virtually anywhere you want it. Add a wall-mounted mixer.

Oval 170/158

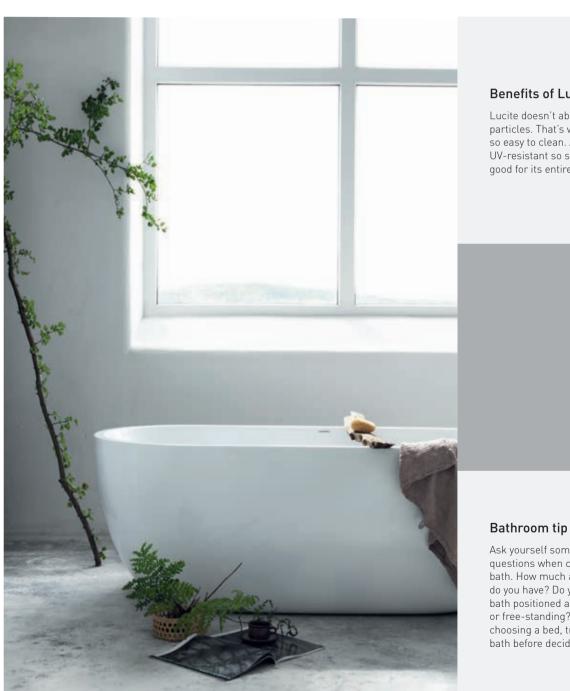

A deep cast marble bath that provides exceptional bath experiences. Ergonomic design with soft rounded shapes. Available in two sizes.

Design: Pelikan Copenhagen

Lucite

Besides looking attractive, Lucite baths are practical and easy to clean. What's more, acrylic is a highly malleable material that can be moulded into almost any shape.

Benefits of Lucite

Lucite doesn't absorb dirt particles. That's what makes it so easy to clean. Acrylic is also UV-resistant so stays looking good for its entire lifespan.

Ask yourself some simple questions when choosing your bath. How much available space do you have? Do you want your bath positioned against the wall or free-standing? Just like when choosing a bed, try sitting in your bath before deciding.

Lule 158/170

Design and function in one bath. Round and ergonomic. Made of Lucite, which is stronger than acrylic and has a more luxurious surface.

Ume

Ume has a round ergonomic design that makes it very comfortable to sit in. Bath depth 45 cm. Supplied complete with drain connection.

Eno

Eno is rectangular and angled so you can lie back comfortably. Minimalist design with straight lines. Bath depth 44 cm. Smart drain position. Supplied complete with drain connection.

Barb

The oval shape creates a soft, modern look. Due to its free-standing design, the bath looks elegant and can easily be installed in most bathrooms. It is spacious with a generous bath depth. A wall-mounted mixer can be added.

Acrylic

Besides looking attractive, acrylic baths are practical and easy to clean. What's more, acrylic is a highly malleable material that can be moulded into almost any shape. Available with or without a massage system.

Bath with shower Z150, Z1600 and Z1700

Three practical bathtubs with plenty of shower space. Perfect if you have a small bathroom but want both a bath and a shower. Available for right-hand or left-hand installation (the large picture shows right-hand installation). Can be supplemented with a shower screen. See page 126 and 139.

Buzz corner bath

A compact corner bath with integrated front panels, ideal for small bathrooms. Practical surfaces for soap, shampoo and bubble bath. The perfect choice for families.

Bath Z160

An attractive, simple bath that is ideal for one person. The soft, rounded lines look great and provide exceptional comfort.

Belle bath

A classic clawfoot bathtub that adds style to any bathroom. A luxurious, distinctive look. Modern, comfortable and functional. The head end is slightly raised to provide comfort and support for your back. Claw feet are available in chrome, brass, bronze and white matt.

Classic bath

An attractive and comfortable bathtub with a classic design featuring claw feet. The slightly higher end provides comfortable support for the back. Claw feet are available in chrome, brass, bronze and white matt.

Enamel

At the very mention of enamel, many people's eyes glaze over with nostalgia. This fondness for enamel isn't only because of its historic traditions; enamel is also a practical and robust material. These baths have almost everything, except the option of adding a massage system.

A classic material

Enamel has been used for centuries in products ranging from kitchenware to baths. It is a 100% natural material that is resistant to wear and scratching. Moreover, enamel gives the bath an attractive, slightly shiny finish.

Tofta

A traditional bath in classic enamel with a spacious ledge for standing things on. Maximum wear protection. Stable on all surfaces.

Page. 212

Skoga shower screen for combined shower and bath (see page 126).

1.Sit-up bath in enamelled steel. Ergonomic with carefully designed seating area for maximum comfort and easy access.

2. Steel bath with enamelled finish

Available in several sizes. See the Buyer's Guide page 212.

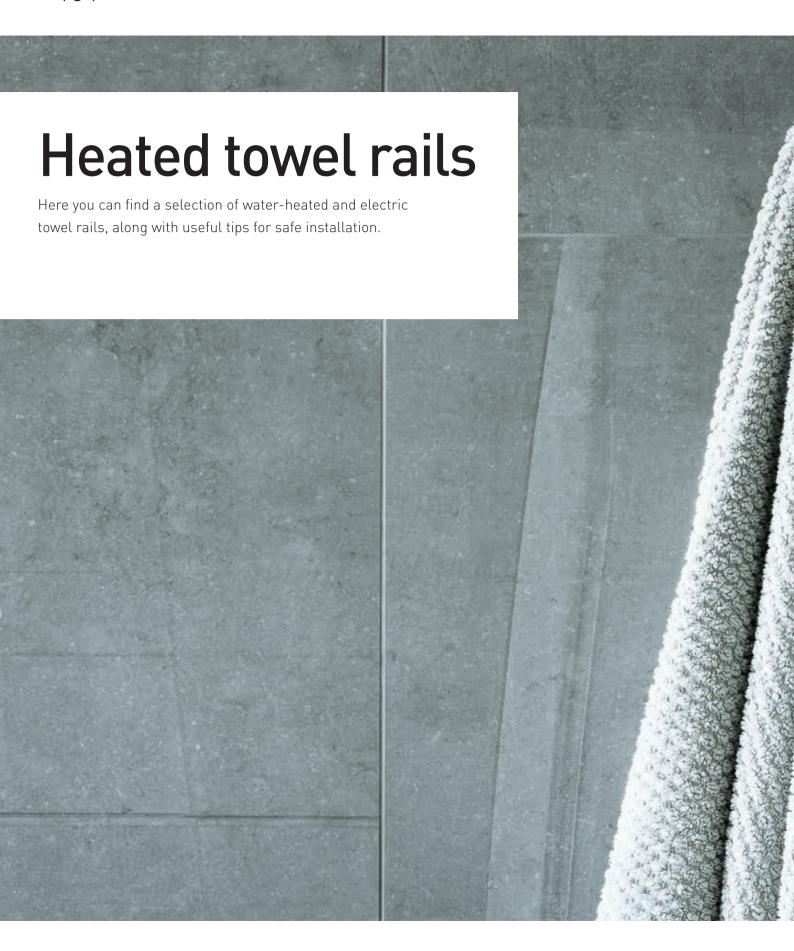

An optional panel can be added to give the bath a solid front (available in black or white).

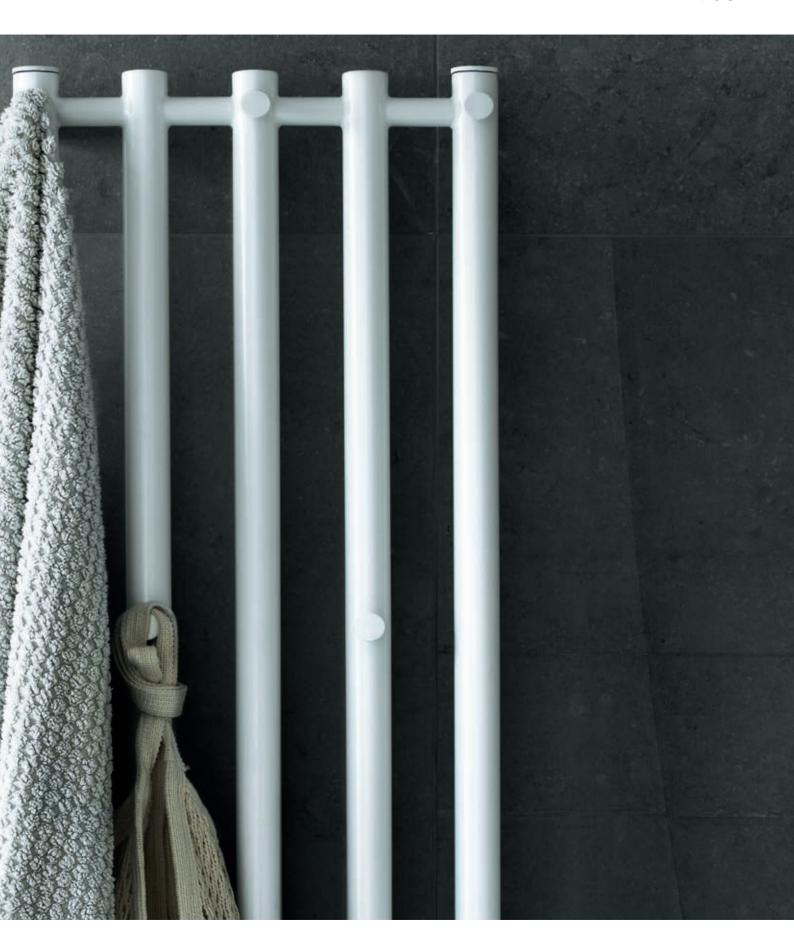

Legs on the corners leave space under the bath that can be used for storage. This also makes cleaning easier.

Tips for choosing a heated towel rail

There are essentially two types of heated towel rail: electrically heated or centrally heated (water-heated). You also have the option of combining the two types. Your choice should be based on the type of heating system you currently have in your home. Whatever you decide on, we have many attractive heated towel rails to choose between. Some have energy-saving functions built in, while others allow you to add them.

Electric towel rail

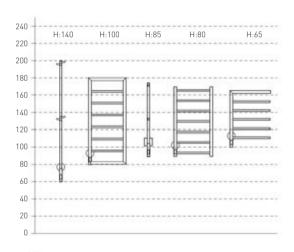

This is a practical, convenient solution suitable for most bathrooms. It's easy to connect. Simply plug the lead into the nearest socket to switch the rail on. Our electric towel rails have built-in timer and boost functions for extra energy savings. You can set the timer to start and stop at the times that suit you. You can press the boost manually for faster heating and choose how long you want it switched on.

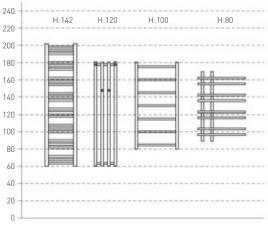

Water-heated towel rail

The great thing about a water-heated towel rail is that it utilises the heat already circulating in your home. You simply connect it to your existing closed water system. During the warmer months of the year, when the water in the heating system does not heat up as much, you might need some help from an electric valve. A water-heated towel rail can also be heated with only electricity. This requires an electric valve. There are two electric valves to choose between. One can be adjusted between 30-60 °C and has a built-in switch. The other is an Erica electric valve, which can be adjusted between 30-60 °C and has a built-in switch, timer, boost and antifreeze functions. You will also need to buy an extra valve. Read more on page 171.

Please note when installing

Take extra care when deciding the position and height of your heated towel rail. This is particularly important today, since modern towel rails come in a wide variety of heights and designs.

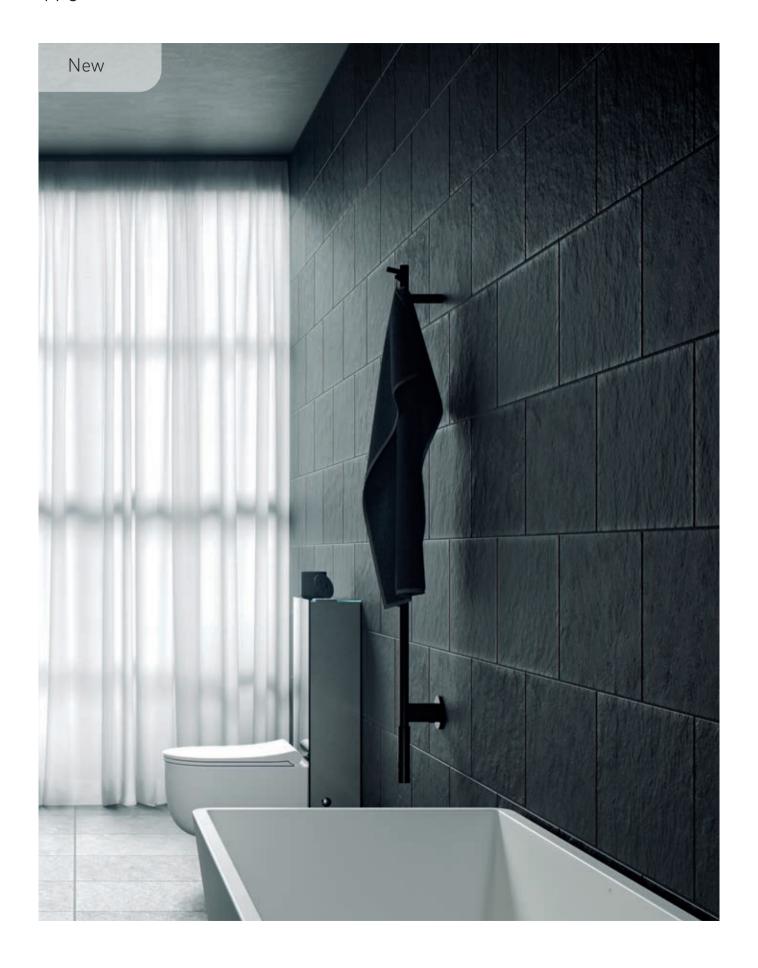

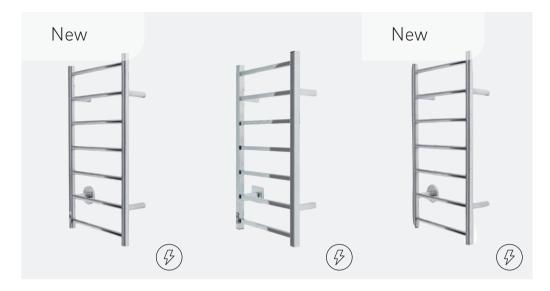

Recommended installation height.

Diana -SL/SR

Heated towel rail 56W with timer and boost. Stainless steel. Available for left-hand or right-hand installation.

Size: 48 x 80.

Diana -Ql/QR

Heated towel rail 56W with timer and boost. Stainless steel. Available for left-hand or right-hand installation.

Size: 48 x 80.

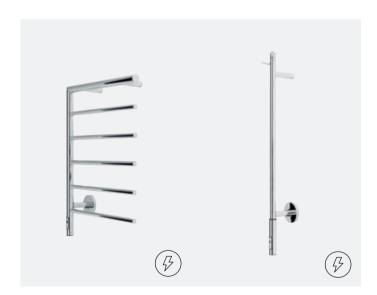

Loki

Heated towel rail 56W. Stainless steel. Available for left-hand or righthand installation.

Size: 48 x 80.

Flora -SL/-SR

Electric heated towel rail 42W with timer and boost. Available in left- and right-installed versions.

Size: 50 x 65.

Amor

Electric heated towel rail 10x85 (12W), 10x140 (17W) with timer and boost.

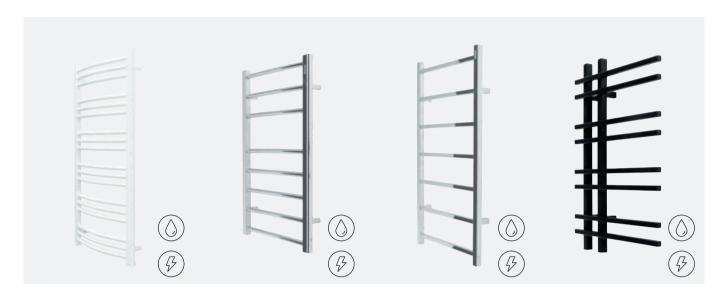

Size: 10 x 85, 10 x 140.

Size: 10 x 85, 10 x 140.

WATER-HEATED TOWEL RAILS

Bas

Heated towel rail. Curved.

Size: 50 x 69, 50 x 100, 50 x 142, 37 x 142 (straight).

EIR

Heated towel rail

Size: 40 x 75, 40 x 120, 50 x 75, 50 x 120.

Electric element Erica 300W timer

Concealed connection and isolator switch. Timer and boost.

Meg

Adjustable electric element Meg 300 W Visible connection. Chrome. Order No. 54301

BATHROOM TIP

If you choose to add an electric valve for your centrally heated towel rail, make sure you turn off the valve on the towel rail. Otherwise the whole heating system in your home will switch on.

Valve For central heating system, not tap water system. Chrome. Order No. 54080 Black. Order No. 54100

Valve for central heating system, not tap water system. Stainless.Order No. 54060

Checklist for choosing a WC

Safe water installation

We are a member of "Safe Water Installation", a Swedish industry organisation. All our WCs meet the EN 997 standard and all the connection tubes are type-approved, for your safety.

Easy to clean

Our WCs have a hidden drain and water trap to facilitate cleaning. The tank element is seamless, which prevents dirt from accumulating.

Safe servicing

The flush water volume and mechanisms are easily accessible for adjustment and servicing. The plastic tank reduces risk of leakage.

Condensation-free cistern

All Svedbergs WCs have a plastic tank containing the flush water, which reduces the noise when the tank fills up.

Quick hitch seat

The seat of the 9085/9087 WC is specially designed to fit the shape of the WC, with no protruding edges to disturb the harmony of the design. A quick hitch system makes the seat easy to assemble (and easy to remove for cleaning).

EasyClean

The WC bowl is EasyClean-treated to prevent dirt accumulation. The flushing channels, flushing troughs and whole drain system are glazed to minimise post-flush dripping.

WC 9085

with concealed S-trap. 6/3 litre flush

WC 9087

with concealed P-trap. 6/3 litre flush

Spare parts

No matter how good a product's quality, sometimes you need spare parts. We keep them in stock.

Easy to clean

The seat is easy to detach, allowing easy access for cleaning.

Comfortable seat height

The seat height is always 43 cm, a standard we introduced 15 years ago.

Make your WC a design feature

A wall-mounted WC doesn't only look good - it also offers many practical advantages. For instance, the floor underneath the WC is easily accessible for cleaning. We have various models to choose between. Which one suits your bathroom best?

FLUSH PLATE

WC fixture

Wall-mounted WCs

Wall-mounted WCs with a rimless flush system (smooth surfaces on inside and outside). Hygienic and easy to clean. Thin seat that is adapted to the toilet's shape, without protruding edges that disturb the design. With soft close system that slowly and silently closes the lid and seat. Quickhitch system for easy assembly and easy removal for cleaning.

New

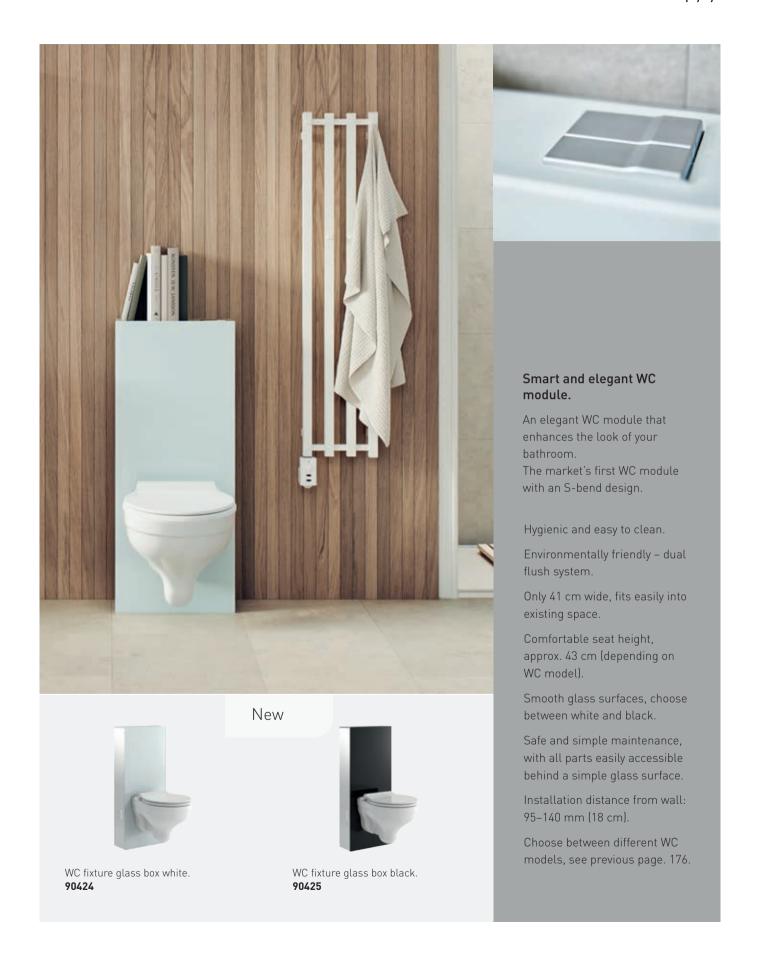

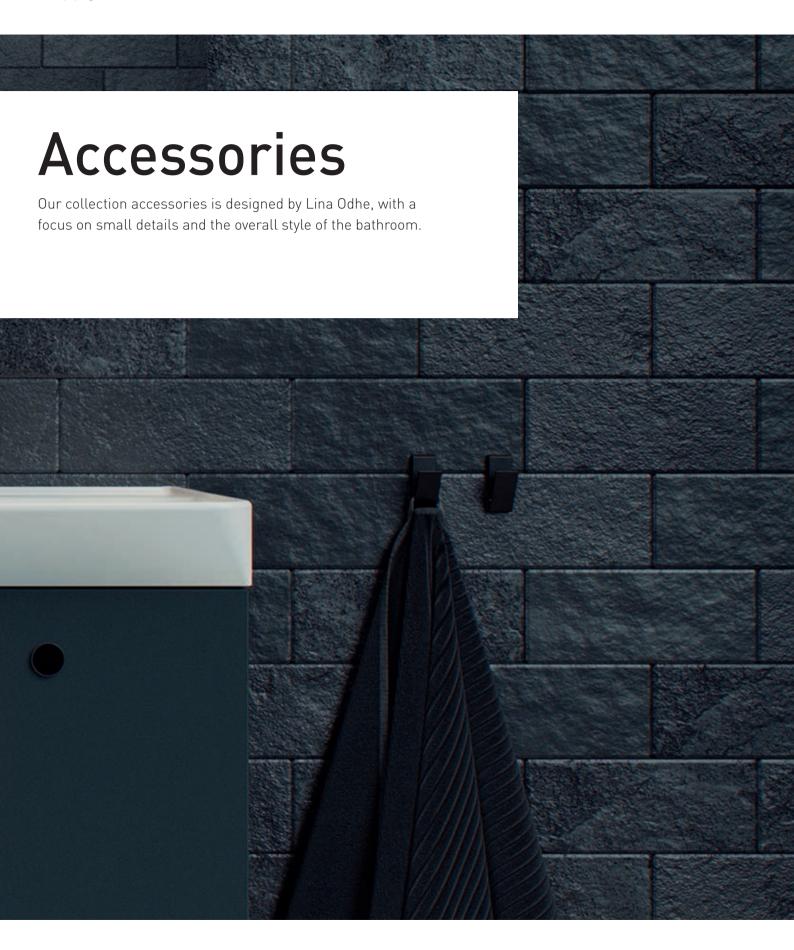

WC Alta Rimless. Integrated, easily removable, high-density plastic seat, soft closing (white).

New

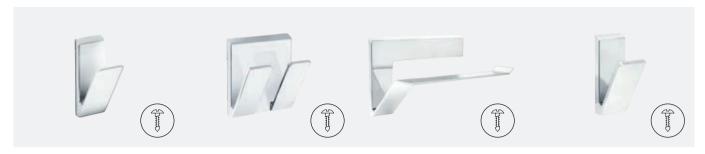

WC Lossen Rimless. Integrated, easily removable, high-density plastic seat, soft closing (white).

CORNER SHOWERS

SKOGA CORNER SHOWER STRAIGHT

Has two opening doors with transparent seals on bottom edges. Doors can be folded inwards when shower is not in use to maximise floor space. No threshold – allows disabled access. 6 mm toughened safety glass. Wall profile allows pipe installation 30 mm from wall. The shower walls can be supplemented with 30 or 50 mm wall profiles. Height 198 cm. Door opening 85-130 cm. The measurements are reversible for right or left fitting.

Dimensions can be customised within the ranges 198cm x 100cm for each door. Contact your dealer.. Delivery time: 4-5 weeks after approved drawing.

Heated towel rails

WATER-HEATED TOWEL RAILS

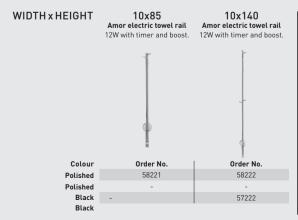

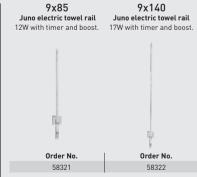

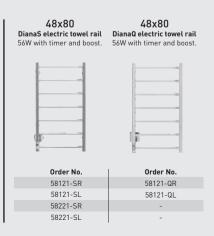

WATER-FILLED HEATED TOWEL RAILS

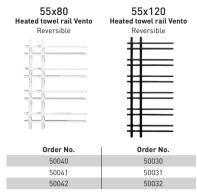

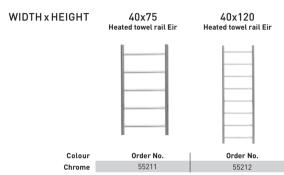

WATER-HEATED TOWEL RAILS

The heated towel rail is ready to be connected to your central heating system or for electrical connection. You have three options:

1.Electrical connection.

Choose an electrical element that is adjustable 30-60° C with a switch. Connect to any bottom outlet where an electrical element can be connected externally. When fitting, fill your heated towel rail with water/ glycol (90/10) solution.

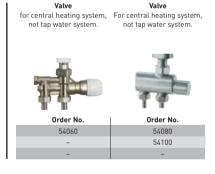

2.Central heating.

Connection to your central heating system (sealed systems only, not tap water system).

3.Dual fuel.

Uses both the above alternatives, which is an advantage in the summer when the central heating system is often switched off.

Material guide

Frames

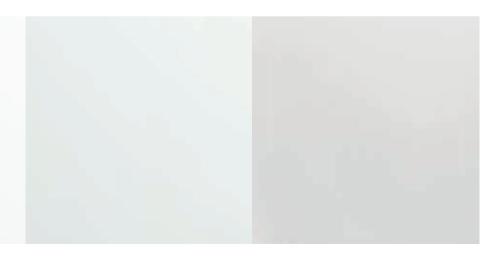

All our frames are made of moisture resistant material. To seal our wooden panels against moisture, we use paints and coatings that absorb into the material. As a result, our frames can withstand demanding environments with high humidity.

Coatings

Our wooden products are coated in four layers, using coating that withstands high-humidity environments. This multiple coating technique creates a protective barrier that prevents moisture from penetrating the wood.

Real wood veneers

All our frames and front panels have real wood veneers. The veneer on the front panels is given two clear matt coatings to create an attractive, moisture-resistant finish. Oak veneer has natural variations in colour and texture.

Lucite

Lucite has all the benefits of an acrylic material but offers additional, even better properties. It is stronger that acrylic and has a luxurious surface finish that feels warm and soft to the touch and remains colour-fast over time.

Cast marble

An artificial marble that is highly shapeable and very hardwearing. It is also a highly insulating material that keeps the water warm for a long time, ideal if you love taking long baths.

Solid surface

A supremely shapeable and low-maintenance material. It is exceptionally hard-wearing and hygienic. Solid surface can mimic the appearance of wood, stone and other natural materials. Whichever product you choose from Svedbergs, you can be sure that the materials have been carefully chosen by us. This is partly to optimise the design, but also to ensure the products have a long, happy life in bathroom environments, where temperatures and humidity levels are especially prone to fluctuation. This places extra high demands on the products. On this page spread you will find brief descriptions of most of the materials we use.

Acrylic

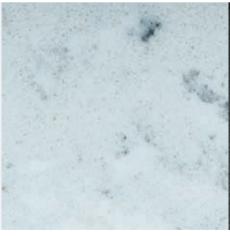

One of the oldest synthetic fibres on the market. Acrylic is moisture resistant, hardwearing and easy to clean. It is also highly shapeable, offering plenty of scope for exciting designs.

Porcelain

The word porcelain derives from the Italian porcella, meaning a white cowrie shell. We add a glaze to the surface to protect the porcelain from scratches and dirt. This also makes the porcelain resistant to most chemicals.

Sheet metal

We use galvanised sheet metal, which we powder coat to make it resistant to rust, impact and scratching. All treatment takes place in a closed process at our own coating facility, using environmentally friendly Bonderite NT and solvent-free coatings.

Enamel

Enamel is made of powdered glass, which is heated until it melts and then allowed to harden. It is a robust material that has been used to make baths for many decades. Underneath the enamel coating, our enamel baths are made of pressed steel.

Silestone

Silestone is made almost entirely of natural quartz, one of the hardest minerals in the world. It is resistant to scratches and wear. Because of its low porosity, it is easy to wipe away any stains from wine, coffee and makeup.

Dekton

Dekton is more resistant to bending than granite, and also withstands high temperatures. This material is resistant to scratching, UV degradation and fading, and its non-porous surface is easy to clean.
